PHILADELPHIA.
W. Freeland Kendrick, Mayor; Willb. Hadley, City Controller.
Philadelphia, co-extensive with the county of the same name, is the third largest city of the U. S., and has an area of nearly 130 square miles. The city was founded in 1682 by William Penn, chartered in 1787, and consolidated in 1854 with numerous outlying districts and boroughs. Many sections of the city of Philadelphia still retain their old names and are constantly referred to as such. Among these may be mentioned Germantown, Manayunk, Frankford, Bridesburg, Roxborough, West Philadelphia, Richmond, &c., &c. The county is under city control and has no separate debt.

Registered loans overdue and outstanding Jan. 1 1926...$14,100

TAX-FREE.—All bonds are exempt from tax to holders.

TOTAL DEBT, SINKING FDS., &c.—The subjoined statement shows Philadelphia's total municipal debt. [By a decision of the Supreme Court of Pennsylvania, filed May 31 1894, it is held that, within the meaning of the word "Debt" in Section VIII, Article IX, of the Constitution of Pennsylvania, the real debt of the city is the authorized debt less the amount of the city certificates purchased and uncanceled in the sinking fund.]

Fund. debt Mar 12 '26	$452,142,400
Floating debt (mortgage, ground rents, &c.)	185,613
Mandamuses outstand'g	213,191
Awards of juries and board of view	157,613
Temporary loan	1,000,000
TOT. DEBT Mar 12 '26	453,698,817
Sinking funds	72,025,700
Tot. net debt Mar 12 '26	381,673,117
Cash in and income of sink. fund applicable within present fiscal year to payment of Mar 12 '26	8,446,605

BORROWING CAPACITY.—The borrowing capacity of the city on Mar. 12 1926 was $60,099,815.

CITY DEBT LIMIT.—Under an amendment proposed to Section 8 of Article IX of the State Constitution, passed by the 1925 Legislature, but which must be again approved for a second time and then submitted to the voters, the total city debt limit of the City of Philadelphia would be increased to 14%, with a requirement that not exceeding 3% of the extra indebtedness may be incurred without consent of electors.

CITY PROPERTY.—The city owns land, buildings, equipment and other permanent improvements valued on Jan. 1 1926 at...$548,431,472

ASSESSED VALUATION, &C.—The following shows the assessed value of property, and the tax rate, for years indicated. Property in this city up to and including 1903 was assessed at about 80% of its actual value. In 1904, however, values were increased to nearly real value resulting in a decreased tax rate.

Years—	Assessed Real Estate and Personal* Estate Valuation	Tax rate per $1,000
1926	$3,035,855,176	$27.00
1925	2,769,737,026	$27.00

PITTSBURGH. John H. Henderson, Comp.

This city, now known as "Greater Pittsburgh," is situated in Allegheny County. Legislature of 1905 passed an Act providing for the annexation of Allegheny; on Nov. 18 1907 the U. S. Supreme Court held the law valid (V. 85, p. 1352), and annexation became effective Dec. 9 1907. The boroughs of Sheraden and Montooth were also annexed in 1907. Beechview annexed on Jan. 1 1909. At an election held Dec. 9 1919—V. 109, p. 2282—the voters of the Borough of Spring Garden voted for annexation to the City of Pittsburgh. Chartiers Twp. on Dec. 14 1920, voted for annexation. On Dec. 5 1920 the borough of St. Clair voted for annexation, effective Jan. 1 1923. All bonds issued in coupon form with privilege of registration.

On July 3 1915 the State Supreme Court handed down a decision bearing upon the computation of debt subject to the 2% limit or "councilmanic" debt, that is, debt incurred by the City Council without a vote of the electors, as distinguished from "electoral" debt, which is not subject to the 2% limit. See "Chronicle" of Aug. 7 1915, page 465. The constitutional limit for all debt is 7%. "English Act" cases affirmed by State Supreme Court on May 22 1916, see "Chronicle" of June 10 1916, page 2180.

		(Optional at 105 after Jan 1 1926)	

INTEREST.—On bonds of 1906 is payable at the office of School Fund Trustee; refunding bonds of 1897 at the Philadelphia National Bank in Philadelphia; on hospital and women's college improvement bonds at the Farmers' Bank in Wilmington, and on others at the Farmers' Bank in Dover.

TOTAL DEBT.—The total bonded debt of the State on June 30 1925 was $8,601,785. Assets of the State on June 30 '25 totaled $14,111,169.54 and consisted of the following: State Treasurer's cash balance, $3,633,403.81; uncollected tax assessments (estimated), $200,026.18; investments (General Fund), $394,500; investments (Sinking Fund), $1,294,500; investments (Ferris Indus. School), $14,500; investments (School Fund), $944,407; and property owned by State having an estimated value of $7,629,832.55.

ASSESSED VALUATION.—The total assessed valuation of the State in 1914 was $108,439,104. No assessment for State purposes since then. No assessment is made inasmuch as there is no direct State tax in Delaware. The nearest approach to a total for the State is to take the county assessments for county purposes. For 1925 the aggregate of these county assessments was $242,318,711.

DEBT LIMITATION.—The new constitution (adopted June 4 1897) does not contain any general provisions authorizing bond issues or limiting the debt-making power, *except* that it—

(1) Forbids the State (Article 8, Sec. 3) to borrow money or create debt, "but pursuant to an Act of the General Assembly passed with the concurrence of three-fourths of all the members elected to each House, except to supply casual deficiencies, repel invasion, suppress insurrections, defend the State in war or pay existing debts."

(2) Forbids any county, city, town or other municipality (Article 8, Sec. 8) to "lend its credit or appropriate money to, or assume the debt of, or become a shareholder or joint owner in, or with, any private corporation or any person or company whatever."

(3) Forbids any corporation (Article 9, Sec. 1) to be created, &c., by Special Act, "but only by or under general law"; "but the foregoing provisions shall not apply to municipal corporations, banks," &c.

The above indicates that the authority as regards municipalities [except as already specified in number (2)] rests with the General Assembly, and the General Assembly always passes Special Acts to provide for special occasions and needs.

By Section 53 of Article VIII, Chapter 160, Laws of 1921, as amended by Chapter 177, Laws of 1923, authority is conferred upon any school district or special school district to issue bonds to carry out the building program of said district as approved by the State Board of Education (with a provision that no grounds shall be purchased or contracts made in contemplation of the issuance of such bonds); the limit to incur debt for that purpose is fixed at 5% of the assessed value of real and personal property of the issuing district. Bonds issued by virtue of the section are to bear interest at a rate not exceeding 6%, are to run not longer than twenty-five years, to be sold at not less than par, principal and interest to be made payable at the branch of Farmers' Bank in the county in which said bonds are issued, and are exempted from all State, county or municipal taxes. The section also provides that all bond issues must be voted upon at a special election.

STATE INCOME TAX LAW.—At the 1917 session of the State Legislature there was enacted a State Revenue Income Tax Law, this being done by amending Chapter 6 of the Revised Code, and adding what was then known as Article 31 (later amended by Chapter 30, Laws of 1919). At the 1921 session of the Legislature, however, the law was repealed by Chapter 9, Laws of 1921, and a new law enacted, which was further slightly amended in 1923 by Chapter 16, Laws of 1923. Under the law which was in force until Nov. 1 1921, all income records or matters pertaining thereto were in charge of the State Treasurer, but the duties have now been transferred to the State School Tax Department. The law as it now stands levies a tax of 1% of the net income not in excess of $3,000, 2% of the amount of net income in excess of $3,000, but not in excess of $10,000, and 3% of the net income in excess of $10,000. All citizens or residents of the State whose income is $1,000 or more are taxable. In the case of a single person, exemption of $1,000, and in the case of the head of a family, or a married person living with husband or wife, a personal exemption of $2,000 is allowed. The revenue derived under this law is for school purposes.

INVESTMENT OF TRUST FUNDS.—Chapter 226, Section 3, of the Laws of 1909, provides as follows:

Sec. 3.—Excepting where instruments creating trusts prescribe otherwise, trustees named in wills or appointed by the Chancellor may hereafter invest the funds of their trusts in securities of the following classes and kinds, viz.:

(*a*) Stocks and bonds and interest-bearing obligations of the United States for which the faith and credit of the United States are pledged to provide for the payment of the interest and principal thereof, including the bonds of the District of Columbia;

(*b*) Stocks and bonds and interest-bearing obligations of the State of Delaware and of any other State of the United States, issued pursuant to the authority of the law relating thereto;

(*c*) Stocks and bonds of any county of the State of Delaware and of any county of any State of the United States, issued pursuant to the authority of the law relating thereto;

(*d*) Stocks and bonds of any school district of the State of Delaware, issued for school purposes and pursuant to the authority of the law relating thereto;

(*e*) Stocks and bonds and interest-bearing obligations of any incorporated city or town of the State of Delaware or of any of the States of the United States, issued pursuant to the authority of the law relating thereto, for the payment of which the faith and credit of the municipality issuing the same are pledged;

(*f*) Bonds of either natural persons or corporations, secured by first mortgage on productive real estate, free from prior encumbrances;

(*g*) Bonds of railroads, transportation and public service corporations, secured by mortgage upon the property, plants and systems of such corporations;

(*h*) Collateral trust bonds of railroads, transportation and public service corporations, where the same are secured by guaranteed underlying stocks (or bonds secured thereby), when no default in the payment of installments of principal or of interest for more than ninety days after the same has become due, has occurred in connection therewith, within a period of ten days preceding the investment of trust funds therein:

(*i*) Car trust certificates and equipment trust bonds;

(*j*) Underlying securities of railroad, transportation and public service corporations, bearing guaranteed dividends, where no default in dividends has occurred after the guaranty;

(*k*) Such other securities as may be approved by the Chancellor.

By the laws of 1911 this section was amended by inserting a proviso that "the foregoing specification of classes of securities in which trustees may invest the funds of their estates, shall not be construed to relieve said trustee from the duty of exercising due care in the investment of said funds."

BANK INVESTMENT LIMITATION.—Under Section 13 of the Bank Act, passed by the 1921 Legislature, it is provided: "No bank or trust company shall invest more than twenty-five per centum of its total capital, surplus and undivided profits in the stock, bonds or other obligations of any one corporation or political entity or political division, except bonds or other obligations of the United States, or of the State of Delaware, or of any county, city, town or school district in the State."

TAXATION OF BONDS.—We are unofficially advised that bonds issued by the State of Delaware and its political subdivisions are not taxed under any law of the State.

TOTAL DEBT, SINKING FUND, ETC.—The subjoined statement shows Maryland's total State debt and the sinking fund held by the State against the same on the dates named:

	Sept. 30 '25.	*Sept.* 30 '24.	*Sept.* 30 '23.	*Sept.* 30 '22.
Total funded debt	$34,358,881	$34,247,881	$34,247,881	$32,259,881
Sinking fund, &c	*a*14,060,446	*g*13,080,727	*f*12,648,449	*e*11,840,293
Net debt	$20,298,235	$21,167,154	$21,599,432	$20,419,588

e Sept. 30 1922 it was composed of $1,500,000 mortgage bonds of the Northern Central Ry. Co., $9,282,750 stocks and bonds, and $1,057,542.82 cash. *f* Sept. 30 1923 it was composed of $1,500,000 mortgage bonds of the Northern Central Ry. Co. and $11,148,449 stocks, bonds and cash. *g* Sept. 30 1924 it was composed of $1,500,000 mortgage bonds of Northern Central Ry. Co. and $11,580,727 stocks, bonds and cash. *a* Sept. 30 1925 it was composed of $1,500,000 mortgage bonds of the Northern Central Ry. Co. and $12,560,645 stocks, bonds and cash.

As against the net debt of $21,167,154 Sept. 30 1925, the State has as an offset her unproductive stocks, amounting to $419,150, and $2,636,169 due from Accounting Officers and Incorporated Institutions.

The receipts of the State for the year ending Sept. 30 1925 amounted to $23,073,524; balance in treasury Oct. 1 1924, $7,235,057; total, $30,308,581; disbursements, $22,761,566. The cash balance in the treasury on Sept. 30 1925 amounted to $7,547,014.38. Of this amount $5,057,342.86 belonged to the sinking funds and $2,489,671.52 remained in the treasury unobligated as of Oct. 1 1925.

LEGISLATURE GIVEN AUTHORITY TO PASS NECESSARY LEGISLATION TO PROVIDE FOR PAYMENT OF A SOLDIERS' BONUS UNDER AMENDMENT APPROVED BY VOTERS.—LEGISLATION SUBJECT TO REFERENDUM.—The voters of this State at the general election held on Nov. 4 1924 approved by a vote of 92,506 to 49,544 a proposed amendment to Section 34, Article 3, of the State Constitution. The amendment permits the State of Maryland to pledge its credit for the raising of such funds as may be needed for the aid or compensation to those citizens of the State who, during the time of war, have with honor served their country and State, and delegates the power of raising such funds to the General Assembly, provided, however, that such action of the General Assembly shall be effective only when submitted to and approved by a vote of the people of the State at the general election next following the enactment of such legislation. This State originally proposed a soldier bonus in 1922. In that year the State Legislature passed an Act providing for the payment of a bonus by a bond issue of $9,000,000, to be submitted to a vote of the people. This Act, however, was later declared unconstitutional by the State Court of Appeals because of the referendum provision, the Court holding that the Legislature was without authority to pass a general law carrying a referendum to the electorate of the State (V. 115, p. 402).

ASSESSED VALUATION, ETC.—The following table shows the total funded debt, available assets, assessed valuation and tax rate:

Years—	*Total Funded Debt.*	*Available Assets.*	*Total Assessed Valuation.*	*Tax Rate per* $1,000
1925	$34,358,881	$14,060,466	$2,208,284,945	$2.72
1924	34,247,881	13,080,727	1,910,562,133	3.015
1923	34,247,881	12,648,449	1,804,724,860	3.015
1922	32,259,881	11,840,293	1,623,734,661	3.533
1921	30,475,881	10,867,869	1,555,226,454	3.533
1920	28,364,880	10,021,004	1,518,706,078	3.657
1919	28,173,800	9,113,575	1,379,317,274	3.657
1918	28,983,880	9,731,246	1,369,324,009	3.657
1917	27,448,881	8,792,898	1,189,992,332	3.64
1916	26,285,881	8,516,267	1,182,456,531	3.23
1915	22,785,881	7,710,589	1,092,993,576	3.23½
1910	7,529,926	6,308,950	836,665,067	1.60
1905	8,526,926	5,439,047	712,455,956	2.35
1900	6,309,326	3,424,057	616,719,782	1.77½
1895	8,864,986	5,679,733	534,930,476	1.77½
1890	10,691,124	6,278,907	482,184,824	1.77½

Of this total valuation of $2,208,284,945, part, $1,869,202,118, is real and personal property taxable at $2.73 per $100; the remainder, $339,082,827, consists of securities taxable at 15c. per $100.

STATE TAX RATE FOR 1925, 1926 AND 1927.—Chapter 572, Laws of 1924, fixes the State tax rate (per $1,000) for each of the years 1925 and 1926 at $2.72, and for 1927 at $2.725.

DEBT LIMITATION.—There are three provisions in the Constitution of Maryland relating to the power of the Legislature to authorize bond issues.

The first provision is contained in Art. 3, Sec. 34 of the Constitution, which, as amended in 1924, reads as follows:

Sec. 34. No debt shall be hereafter contracted by the General Assembly unless such debt shall be authorized by a law providing for the collection of an annual tax or taxes sufficient to pay the interest on such debt, as it falls due, and also to discharge the principal thereof within 15 years from the time of contracting the same, and the taxes laid for this purpose shall not be repealed or applied to any other object until the said debt and interest thereon shall be fully discharged. The credit of the State shall not in any manner be given or loaned to, or in aid of, any individual association or corporation; nor shall the General Assembly have the power in any mode to involve the State in the construction of works of internal improvements nor in granting any aid thereto which shall involve the faith or credit of the State; nor make any appropriation therefor, except in aid of the construction of works of internal improvement in the counties of St. Mary's, Charles and Calvert, which have had no direct advantage from such work, as have been heretofore aided by the State; and provided that such aid, advances or appropriations shall not exceed in the aggregate the sum of five hundred thousand dollars. And they shall not use or appropriate the proceeds of the internal improvement companies, or of the State tax, now levied, or which may hereafter be levied, to pay off the public debt (or) to any other purpose until the interest and debt are fully paid or the sinking fund shall be equal to the amount of the outstanding debt; but the General Assembly may, without laying a tax, borrow an amount never to exceed fifty thousand dollars to meet temporary deficiencies in the Treasury, and may contract debts to any amount that may be necessary for the defense of the State. And, provided further, that nothing in this section shall be construed to prohibit the raising of funds for the purpose of aiding or compensating in such manner or way as the General Assembly of the State shall deem proper, those citizens of the State who have served, with honor, their country and State in time of war; provided, however, that such action of the General Assembly shall be effective only when submitted to and approved by a vote of the people of the State at the general election next following the enactment of such legislation.

The second provision is contained in Article 3, Section 54 of the Constitution. This provision prohibits any county of the State from contracting any debt in the construction of any railroad, canal or other work of internal improvement, and from giving or loaning its credit to or in aid of any association or corporation, unless the same is authorized by an Act of the Legislature.

The third provision is contained in Article 11, Section 7 of the Constitution, and it prohibits the Mayor and City Council of Baltimore from creating any debt, or giving or loaning its credit to or in aid of any individual, association or corporation, or making any appropriation for works of internal improvement, unless such debt or credit is authorized by an Act of the Legislature, and also by an ordinance of the city submitted to and approved by a majority of the voters of the city. The city of Baltimore is, however, authorized temporarily to borrow any amount of money to meet any deficit in the city treasury, or to provide for any emergency arising from the necessity of maintaining the police or preserving the safety and sanitary condition of the city, and may make due and proper arrangements and agreements for the removal and extension, in whole or in part, of any and all debts and obligations created according to law before the adoption of the Constitution.

No general limit of indebtedness is prescribed for the State or for cities or counties. Nor is there in the statutes any general authorization under which the State or the cities or counties can issue bonds. The power is lodged in the Legislature, subject only to the foregoing constitutional limitations, and it is delegated to the cities and the counties, from time to time, for specific purposes as the occasion may arise. It is, therefore, necessary for the investor to study the provisions of the particular law providing for each loan in the light of the constitutional limitations aforesaid.

REASSESSMENT ACT OF 1916 UPHELD BY COURT OF APPEALS.—See "Chronicle" of Sept. 23 1916, page 1143.

EXEMPTION FROM TAXATION.—An Act of the Maryland Legislature (Chapter 43, approved March 12 1914, exempts from all taxation for the year 1914 and thereafter, all bonds or other obligations hereafter to be issued by the State or any county, city or municipal corporation, or other political sub-division, and all such securities heretofore issued by any county or municipal corporation which have been sold under terms rendering such county, city or municipal corporation liable for the State tax thereon. The Act was printed in full in V. 99, p. 1238.

SAVINGS BANKS INVESTMENTS.—The law regulating the way in which savings institutions in the State of Maryland are permitted to invest their deposits is contained in Section 33 of the 1910 Banking Law of Maryland, which provides that "Every savings institution existing under the laws of the State of Maryland, or which may hereafter be incorporated, transacting strictly a savings bank business, shall be capable of receiving from any person or persons, or bodies corporate or politic, any deposit of money, which shall be invested or loaned out on good security, in the discretion of the directors; provided, no part of the funds of such corporation shall be loaned to any officer, director or employee thereof. The deposits in any savings institution may be withdrawn at such time and in such manner as its by-laws may permit, but such institution may at any time require a depositor to give a notice, not exceeding ninety days of his intention of withdrawing the whole or any part of his deposit." There are a number of State banks in Maryland which have the word 'savings" in their title, but which are not really mutual savings banks but are State banks with a capital stock. The majority of these were incorporated under special charters prior to the enactment of the 1910 law, which specifically states that "no savings institution or savings bank hereafter incorporated shall have any capital stock, but shall be a mutual association, provided that nothing in this article shall prohibit any savings institution, or savings bank, now in existence, and having capital stock, from increasing its capital stock, as provided by the Public General Laws of this State."

FARM LOAN AND JOINT STOCK LAND BANK BONDS.—In 1917 the State Legislature passed an Act providing for and making legal the investment of trust, fiduciary, savings and other public and private funds in the State of Maryland in Federal Farm Loan bonds. For full text of law see V. 105, p. 951. The law was amended by the 1924 Legislature (Chapter 449, Laws of 1924) making also legal Joint Stock Land Bank bonds.

POPULATION OF STATE—

1920	1,449,661	1880	934,943	1840	470,019
1910	1,295,346	1870	780,894	1830	447,040
1900	1,188,044	1860	687,049	1820	407,350
1890	1,042,390	1850	583,034		

1810	380,546
1800	341,548
1790	319,728

Of the total population in 1880, 22.49% was colored; in 1890, 20.92%; in 1900, 19.8%; in 1910, 17.9%; and in 1920, 16.86%. In number, blacks were 175,091 in 1850, 171,131 in 1860, 175,391 in 1870, 210,230 in 1880, 218,004 in 1890, 235,064 in 1900, 232,250 in 1910 and 244,479 in 1920.

Overdue stock, no int. allowed 2,179
* Payable on or after this date at option of city.

INTEREST on all Baltimore City stock is payable by check mailed direct to the holder.

TAX-EXEMPT.—With the exception of the Western Maryland 1927 loan, the bonds are exempt from State of Maryland taxes. None of the bonds are liable for city taxes.

TAX-EXEMPTION FEATURE FOR CORPORATION PURPOSES ON INVESTNENTS IN CITY LOANS ABOLISHED.—By Chapter 467 of the Laws of 1906, the right of corporations holding investments in stock debt of the City of Baltimore to receive a credit on their taxes to the extent of their investment in such debt is taken away on certain future issues of bonds, even though the city may pay the annual State tax on such debt. The law provides that no credit shall be allowed to any such corporation by reason of any investments in the "stock debt of the city of Baltimore that shall be hereafter issued under the loans authorized by Chapters 274, 338 and 349 of the Acts of the General Assembly of Maryland for 1904, known as the Annex, Park Extensions and Sewer Loans, respectively, or under any other loans that may be hereafter authorized by the General Assembly of Maryland; *provided*, however, that a credit shall be allowed to any such corporation by reason of its ownership of Baltimore City Burnt District Loan Stock, issued under Chapter 468 of the Acts of 1904, the Water Loan issued under Chapter 246 of the Acts of 1902 and the Conduit Loan issued under Chapter 246 of the Acts of 1902, whether heretofore or thereafter issued."

TOTAL DEBT, SINK. FUND, &c

	Jan. 1 1926.
Gross water debt	$25,392,000
Water sinking fund	3,415,234
Net water debt	$21,976,766
Other funded debt	109,930,596
Sinking fund (other than water)	32,125,319
Net general debt	$77,805,277
Total bonded debt	135,322,596
Total sinking funds	35,540,553
Net gen. & water debt	$99,782,043

The city's holdings in the Western Maryland were sold in June 1902 for $8,751,370 45. V. 74, p. 999. The disposition made of this sum was fully given in V. 75, p. 202—$4,263,000 being deposited with several local banks and trust companies for a fixed period of 25 years at 3 ¼ % interest, and $65,909.66 invested in city loans, these sums being set aside to meet the Western Maryland bonds for the payment of which the city is responsible. The remainder was deposited at 3 ½ %, subject to withdrawal on 30 days' notice, and was withdrawn after the city's great conflagration in 1904.

LEGISLATURE.—Legislature meets biennially in odd years on the first Monday in January. There is no limit to length of sessions.

HISTORY OF DEBT.—For historical details of Ohio's State debt from 1825 to 1894 see "State and City Supplement" of April 1894, page 75.

TOTAL DEBT, ETC.—From July 1903 to December 1921 the State had practically no funded debt. However, in December 1921 and April 1922 the State issued soldiers' bonus bonds in the amounts of $20,000,000 and $5,000,000, respectively. The total bonded debt on Nov. 15 1902 was $201,665; in 1901 it was $451,665; in 1900 was $701,665; in 1885, $3,720,229; in 1880, $6,476,805; in 1871, $9,022,721; in 1861, $14,897,273; in 1851, $17,563,329. A table showing bonded debt as of April 1 1926 follows:

Purpose—	[*Int. Rate.*	*Date of Issue.*	*Int. Payments.*	*Amount.*	*Maturity.*
Soldier bonus	4¾	1922	A-O	$13,000,000c	A-O '26-'32
Soldier bonus	4¾	1922	A-O	3 250 000c	A-O '26-'32

COMPARATIVE STATEMENT OF THE STATE AND LOCAL DEBTS

	June 30 '25.	*June* 30 '24.	*June* 30 '23.
Funded State debt (loans)	*$1,665	*$1,665	*$1,665
Irreducible State debt (trust funds)	5,435,312	5,425,409	5,419,149
Soldiers' bonus bonds	18,750,000	21,250,000	23,750,000
Local Debts—			
Debts of counties	$137,616,310	$128,658,657	$118,693,312
Debts of cities	453,573,437	425,265,602	398,627,625
Debts of incorporated villages	53,614,150	46,876,504	39,402,677
Debts of townships	14,739,327	14,626,504	14,131,510
Debts of school districts	219,600,460	203,492,452	189,734,710
Total local debts	$879,143,684	$818,920,044	$760,589,834

* Interest ceased 1871.

Balances of the various funds for the year ending June 30 1925 totaled $21,034,900.55, and were as follows: General revenue, $8,893,320.98; sinking, $225; educational equalization, $56,391.33; educational building, $11,168.60; institutional building, $1,246,435.58; highway, $7,154,205.36; school and ministerial trust, $49,589.38; school rental, $1,552.36; automobile registration distribution, $2,103,158.01; World War compensation sinking fund, $1,157,583.87; motor transportation district, $121,147; gas tax excise, $240,223.08.

The following is a recapitulation of cash and securities on hand at the close of the fiscal year ending June 30 1925:

Cash held in trust	$117,287.73
Cash and bonds owned by State	92,164,942.73
Securities held for faithful performance	63,629,623.99
Total	$155,911,854.45

POPULATION OF STATE (U. S. Census)—

1920	5,759,394	1870	2,665,260	1820	581,295
1910	4,767,121	1860	2,239,511	1810	230,760
1900	4,157,545	1850	1,980,329	1800	45,365

***Property assessed at full value (*see note below*).**

State tax (per $1,000) for 1901, $2.90; 1903, 1904, 1905 and 1906 was $1.35; 1907, 1908, 1909 1910 and 1911, $1.345; 1912, 1913, $0.451; 1914, $0.961; 1915, 1916, 1917, 1918, 1919, $0.45; 1920, $0.65; 1921, $2.30; 1922, $1.025; 1923, $1.525; 1924, $0.30; 1925, $0.26; and 1926, $0.25.

Assessment of property was generally raised to its full value beginning with 1911 in order to provide sufficient revenue under the decreased rates of taxation. The increase in the tax rate in 1921 was caused by additional school levy.

PROPOSED CONSTITUTIONAL AMENDMENTS REGARDING TAXATION AND INDEBTEDNESS DEFEATED.—On Nov. 3 1925 the voters defeated two proposed constitutional amendments as follows: (1) To amend Section 2 of Article XII, so as to provide for taxation by uniform rule of all real estate and tangible property except motor vehicles, and to provide for the taxation of intangible property; (2) To amend Article VIII, by adding a new section (13) relative to the incurring of indebtedness by political subdivisions. Texts of both amendments were given in the "Chronicle" June 27 1925.

COINCIDENTAL TAX AMENDMENT. Section 2 of Article XII., which took effect Jan. 1 1913, requires the taxing authority of any political subdivision of the State proposing to issue bonds to provide at the time the issue of bonds is authorized for levying and collecting annually by taxation an amount sufficient to pay the interest on the bonds proposed to be issued and to provide for their final redemption at maturity. See V. 98, p. 704. for Supreme Court decision concerning this section.

CLASSIFICATION TAX INVALID.—Although a constitutional amendment for the classification of property for taxation was adopted by the people on Nov. 5 1918 by a vote of 479,420 "for" to 371,176 "against" (V. 107, p. 2305), the Ohio State Supreme Court on Jan. 28 1919 ruled out all classification of property for taxation. The Court divided four to three. The point at issue was whether the classification amendment as adopted by the people had really become part of the constitution. The majority decision was that it had not, the opinion of the four judges being that it was in irreconcilable conflict with another tax amendment, the so-called Shinn amendment, intended to exempt mortgages from double taxation, and that it was improperly submitted.

Both were proposals to amend the same constitutional section, Section 2 of Article XII. The voters indorsed both, but the Shinn amendment received the larger vote. As a result of this decision the Shinn amendment became a provision in the State constitution and classification was defeated. The Shinn amendment, in providing for exemption of mortgages from double taxation, retained the language now in the constitution, that property shall be taxed by uniform rule. The classification amendment provided for classifying. Plainly both could not prevail when considered in connection with the whole section of the constitution. That was the reasoning. V. 108, p. 698.

TAXATION OF MUNICIPAL BONDS.—State and municipal bonds issued since Jan. 1 1913 are taxable under Sec. 2 of Article XII of the State constitution. Issues made prior to Jan. 1 1913 are exempt from taxation. A constitutional amendment exempting from taxation municipal bonds issued subsequent to Jan. 1 1916 was defeated Nov. 2 1915. But the Soldier Bonus bonds are expressly made tax exempt.

DEBT LIMITATION.—*FIRST, As to the State's power to contract debt;* this is regulated under the first five sections of Article 8 of the constitution. At the 1921 General Elections, a new section, Section 2a,

We Buy and Sell—

Ohio bonds issued prior to 1913.
Bonds of Arizona, Indian Territory, Oklahoma and New Mexico issued prior to statehood

POOR & COMPANY

Municipal Bonds

320 Walnut Street **Cincinnati**

providing for the issuance of $25,000,000 bonds for a bonus for World War veterans, was inserted by a vote of the people.—V. 113, p. 2423. We insert these five sections in full.

SECTION 1. (*Debt Limited to Seven Hundred and Fifty Thousand Dollars.*) The State may contract debts to supply casual deficits or failures in revenues or to meet expenses not otherwise provided for; but the aggregate amount of such debts direct and contingent, whether contracted by virtue of one of more Acts of the General Assembly, or at different periods of time, shall never exceed $750,000; and the money arising from the creation of such debts shall be applied to the purpose for which it was obtained or to repay the debts contracted and to no other purpose whatever.

SECTION 2. (*Additional and for What Purpose.*) In addition to the above limited power, the State may contract debts to repel invasion, suppress insurrection, defend the State in war, or to redeem the present outstanding indebtedness of the State; but the money arising from the contracting of such debts shall be applied to the purpose for which it was raised or to repay such debts, and to no other purpose whatever; and all debts incurred to redeem the present outstanding indebtedness of the State shall be so contracted as to be payable by the sinking fund herein after provided for, as the same shall accumulate.

SECTION 2a. "The Commission of the Sinking Fund," created in this article, shall forthwith, upon the adoption of this amendment proceed to issue and sell from time to time, under such regulations as they may by order promulgate for not less than par and accrued interest, not to exceed the total sum of twenty-five millons ($25,000,000) of dollars of the bonds of the State of Ohio bearing interest at not to exceed five and one-half per cent per annum, payable semi-annually and maturing in twenty equal semi-annual installments, commencing not later than the first day of April 1923. Such bonds and the interest thereon as income shall be exempt from all taxes levied by the State of Ohio or any taxing district thereof. The proceeds of the sale of said bonds shall be paid into the treasury of the State of Ohio, subject to be paid out, without appropriation by the General Assembly, upon the order of the said "The Commissioners of the Sinking Fund," the same to be known as "The World War Compensation Fund." The said "The Commissioners of the Sinking Fund" shall by their certificate filed with the auditor of the State, add to the State levy for taxation, in the year 1922 and thereafter during the life of such bonds, in addition to all other taxes now or hereafter provided by law, such amounts annually as shall be necessarily, as a tax levy for the retirement of said bonds, and the payment of the interest thereon; and said levy may also provide for the payment of the expenses of administration hereof. Such levy shall not be considered in applying any limitation on aggregate tax rates now or hereafter provided by law. Said taxes when received shall be paid into a fund in the treasury of the State of Ohio to be paid out without appropriation by the General Assembly upon the order of the said "The Commissioners of the Sinking Fund" for the purpose of the payment, or retirement in other manner, of the said bonds, interest thereon, and expenses of administration hereof. As soon as may be, the said "The Commissioners of the Sinking Fund" shall, under such regulations as they may from time to time promulgate, pay out of said fund to persons resident in Ohio at the time of the commencement of service who served honorably on active service in the army, navy, or marine corps of the United States of America, or being also citizens of the United States, in similar forces of any Governments associated with the United States in the world war, with the rank or grade of not higher than captain in the army or marine corps, or corresponding grade in the navy, between the dates of April 6 1917 and Nov. 11 1918, or their heirs at law, adjusted compensation for their full period of active service to the date of separation therefrom, at the rate of ten ($10) dollars per month, but not to exceed two hundred and fifty ($250) dollars. No payment shall be made to any such person, who refused on conscientious, political or other grounds to subject himself to military discipline or to render unqualified service, or who, while in such service, was separated therefrom under circumstances amounting to a dishonorable discharge. The said "The Commissioners of the Sinking Fund" by order shall make regulations; providing for the assignment and payment of the whole or part of any such payment to a fund to be retained by the said "The Commissioners of the Sinking Fund," for the purpose of erecting and maintaining, under such laws as shall be enacted for that purpose, hospitals for the relief of veterans of the world war; providing against any other sale or assignment or fees charged for the collection of said amounts; providing against the enforcement of the claims of creditors as against such payments; imposing penalties for violations of such regulations; fixing from time to time limitations for the presentation of claims for said payments; providing for the contracting and paying of the necessary expenses of administration hereof and such other regulations as are deemed necessary and proper for the administration and payment of said fund. The full faith and credit of the State of Ohio is hereby pledged for the payment of said bonds. The people of the State of Ohio hereby declare that they have enacted this special amendment to meet the specific emergency covered thereby and they declare it to be their intention to in no manner affect or change any of the existing provisions of this constitution except as herein set forth. The provisions of this section shall be self-executing. Upon the retirement of all of the said bonds and payment of all claims presented within the limitations of time as prescribed as aforesaid the said "The Commissioners of the Sinking Fund" shall render a final report to the General Assembly and any balance remaining in the said funds shall be disposed of as shall be provided by law.

SECTION 3. (*The State to Create No Other Debt.*) Except the debts above specified in Sections 1 and 2 of this article, no debt whatever shall hereafter be created by or on behalf of the State.

SECTION 4. (*Credit of State; the State Shall Not Become Joint Owner or Stockholder.*) The credit of the State shall not in any manner be given or loaned to or in aid of, any individual, association or corporation whatever; nor shall the State ever hereafter become a joint owner or stockholder in any company or association in this State, or elsewhere, formed for any purpose whatever.

SECTION 5. (*No Assumption of Debts by the State.*) The State shall never assume the debts of any county, city, town or township, or of any corporation whatever, unless such debts shall have been created to repel invasion, suppress insurrection, or defend the State in war.

SECOND. As to Cities, Towns, Counties, &c., so far as the constitution affects the power of the Legislature to authorize these municipalities to create debt, the limitations are found in Section 6 of Article 8 and in Sections 1, 2 and 6 of Article 13. (1) Section 6 of Article 8 forbids the General Assembly to authorize cities, &c., to become stockholders in or to raise money or loan credit to aid corporations, &c. (2) Sections 1 and 2 of Article 13 forbid the passing of Special Acts and require General Acts for conferring corporate powers. (3) Section 6 of Article 13 provides that the General Assembly make provision for the organization of cities, etc., by general laws and restrict their debt-making power. These sections are as follows.

ARTICLE 8, SECTION 6. (*Counties, Cities, Towns or Townships Not Authorized to Become Stockholders, &c.*) No laws shall be passed authorizing any county, city, town or township, by vote of its citizens, or otherwise, to become a stockholder in any joint-stock company, corporation or association whatever; or to raise money for, or loan its credit to, or in aid of, any such company, corporation or association: *provided, that nothing in this section shall prevent the insuring of public buildings or property in mutual insurance associations or companies. Laws may be passed providing for the regulation of all rates charged or to be charged by any insurance company, corporation or association organized under the laws of this State or doing any business in this State for profit.* [That part of the above section given in italics was added by an amendment adopted Sept 3 1912. V. 95, p. 766.]

ARTICLE 13, SECTION 1. (*Corporate Powers.*) The General Assembly shall pass no Special Act conferring corporate powers.

SECTION 2. (*Corporations—How Formed.*) Corporations may be formed under general laws; but all such laws may, from time to time be altered or repealed.

SECTION 6. (*Organization of Cities, &c.*) The General Assembly shall provide for the organization of cities and incorporated villages by general laws and restrict their power of taxation, assessment, borrowing money, contracting debts and loaning their credit, so as to prevent the abuse of such power.

One at first sight would infer from Section 6, Article 8, above cited, that cities could not subscribe to the stock of or loan money to railroads, as railroads are corporations and joint-stock companies. That, however, is not a correct conclusion, as was decided in the case of Walker *vs.* The City of Cincinnati, a case which arose under an Act of the General Assembly of Ohio entitled "An Act relating to cities of the first class" authorizing any such city to construct a line of railroad therefrom to any other terminus in that State or in any other State. In pursuance of the authority that Act purports to give, Cincinnati undertook to build the Cincinnati Southern Railroad. To test the legality of that proceeding this action was brought. The Court's opinion was very full and explicit, the conclusion being that from "the language of the section, it is quite evident that it *was not intended to prohibit the construction of railroads nor indeed to prohibit any species of public improvements.* The section contains no direct reference to railroads nor to any other special classes of improvements or enterprises. The inhibitions are directed only against a particular manner or means by which under the constitution of 1802 many public improvements had been accomplished."

In compliance with Section 6, Article 13 (cited above), which provides for the organization of cities, &c., by general law, the Legislature made an elaborate classification of municipal corporations, which was in existence for years. First they were divided into cities, villages and hamlets. Then cities were divided into two classes, the first class being subdivided into three grades and the second class being subdivided into four grades, the grade being determined by population according to the last Federal Census. In addition many special laws found their way on to the statute books nominally general in their scope but really so worded as to apply to only one city. In June 1902, however, the State Supreme Court handed down several decisions declaring such laws special legislation and therefore unconstitutional. The decisions were considered to be of such broad application that the Governor called an extra session of the Legislature for the purpose of framing a new general municipal code. The extra session convened Aug. 25 1902 and after a session of nearly two months passed a new "municipal code"—a document too lengthy to quote in these columns. We would refer our readers, therefore, to pages 994 and 995 of the "Chronicle," Nov. 1 1902, wherein will be found at length the more salient points of this important measure.

It remains to be said that at the regular session of the Legislature in 1902 an Act popularly known as the "Longworth Omnibus bill" was passed and subsequently upheld by the State Supreme Court. This Act amended Section 2835, 2836 and 2837, Revised Statutes of Ohio, relating to the issuance of bonds by cities, villages and other municipal corporations.

Under this Act the municipal boards of legislation, councils, &c., could by two-thirds vote issue bonds for *certain specified purposes* to the extent of 1% of the assessed valuation yearly (but not exceeding 4% in the aggregate) without submitting the question to a vote of the people. Bonds issued under this Act in excess of 1% in any one year or in excess of 4% in the aggregate first had to be submitted to a vote of the people and carried by two-thirds of those voting on the proposition; but a net debt (bonds less sinking fund) of more than 8% in the aggregate could not be authorized in any event. The Act as amended in 1906 will be found in the "Chronicle" May 26 1906, page 1224. In May 1910 the law was further amended so as to limit the bonding power of townships and municipal corporations to 5%, instead of 8%, of the tax duplicate. This was done by amending Sections 3942, 3945, 3948 and 3954 of the General Code.

A new law regulating the issuance of bonds or other evidences of indebtedness was passed by the 1921 Legislature. Sections of the law directly affecting the creation of debt are summarized below:

Sec. 2, constituting Sec. 2295-7 Gen. Code, provides that no political subdivision shall incur any indebtedness for current operating expense. The cost of any improvement with a life of less than five years is to be considered current expense. Borrowing, however, in anticipation of special assessments, or for defraying expenses incurred in an emergency, such as flood, or other calamity, is not to be subject to the provisions of this section

Sec. 8 originally amended Sections 3916, 5656, 3925 and 5657 of the Gen. Code, but at the 1923 Legislature Section 5656 was repealed. The remaining sections as amended in 1921 provide for the refunding by a municipality of indebtedness incurred before Jan. 1 1924 and permits the redemption of bonds subject to call before maturity when it is to the best interest of a municipality, county, township or school district to do so, through another issue of bonds, the amount not to exceed the amount of the debt refunded or redeemed.

Sec. 9 amended Sec. 3914 Gen. Code, which section was amended again in 1923. Sec. 3914, as amended, provides for the issuance of bonds in anticipation of the collection of special assessments by municipal corporations and also permits said municipal corporations to borrow money or issue notes, not maturing later than 2 years from date of issue, in anticipation of the levy of special assessments or of the issuance of said bonds, but the amount of such notes shall never exceed that portion of the estimated cost of the improvement or service for which the assessment is levied.

Sec. 10 amends Sec. 3941 and limits the amount of net indebtedness of any municipality created without a vote of the people, to 2½% of the assessed valuation, and amends Sec. 3948 so as to give the maximum net indebtedness of any municipality to 5% of the assessed valuation.

Sec. 12 amended 3949, which section was amended later, namely, in 1923, and as amended provides that the net indebtedness shall be the difference between the par value of the total amount of bonds outstanding and unpaid and the amount held in the sinking fund, judgment fund, bond fund and other debt retirement funds for their redemption, with the additional provision that in the computation of total outstanding bonds, the following shall not be included; bonds issued prior to April 29 1902, bonds heretofore issued to refund, extend the time of payment of, or in exchange for bonds, representing an indebtedness created or incurred prior to April 29 1902, bonds or notes issued in anticipation of the collection of special assessments either in original or refunded forms, and certificates of indebtedness issued in anticipation of the collection of current revenues; bonds issued to pay obligations arising out of an emergency, such as epidemic, flood, &c. (amount of such bonds outstanding not to exceed ½% of the assessed valuation of property); bonds heretofore issued to meet deficiencies in revenue as provided for in Section 3931 of the General Code; bonds issued for water works, the income from which is sufficient to pay principal and interest on the bonds; bonds heretofore issued, or heretofore authorized by the General Assembly for municipally owned steam railways; bonds heretofore issued, or heretofore authorized by a vote of the people under authority of Sections 4000-16 to 4000-28, inclusive, of the General Code, provided that all other bonds issued under the provisions of Sections 4000-16 and 4000-28 shall be counted in the limitation unless prior to their issues, the Public Utilities Commission of Ohio on application made to it by the municipality concerned shall certify that in its opinion the interest and sinking fund charges thereon will be paid the third year of operation from receipts of the rapid transit system to be constructed, with a further provision that after the end of the third fiscal year of operation of any rapid transit system only such amount of the bonds heretofore or hereafter issued

under the provisions of said section shall be excluded from consideration on which the interest, sinking fund and retirement have actually been paid from the receipts of the system during the preceding year, such payment to be certified by the fiscal officer of the municipality; bonds issued under authority of Sec. 15093, of the General Code and subsequent sections thereto of an Act relating to cities of first class having a population exceeding 50,000 inhabitants, passed May 4 1869, and acts supplemental and amendatory thereof; bonds issued under authority of 1259 of the General Code; bonds issued for the payment of non-contractual final judgments; excess condemnation and mortgage bonds, and other bonds not secured by the general credit of the municipality; all bonds issued previous to Jan. 1 1922, not included in the above, which, *at the time of issuance*, were not required by law to fall within the limits of indebtedness prescribed in Sections 3941 and 3948, both of which are cited above.

Sec. 13, setting up Sec. 7630-2 Gen. Code, limits the net indebtedness of school districts to 6% of the assessed valuation but provides that in the case of any district which at the time of the passage of the Act has a debt exceeding 6% of the valuation, such district may issue bonds under authority of Sec. 7625, Gen. Code (amended in 1923) for certain purposes prescribed therein, not to exceed 1% and under authority of Sec 7629, Gen. Code, may issue bonds for purchasing sites and building schools in anticipation of taxes not to exceed ½% of the assessed valuation. Additional bonds may also be issued by a school district under the provisions of Sec. 7630-1 of the General Code (last amended in 1923), and the bonds issued thereunder shall be excluded in computing the debt limit of the issuing district (Section 7630-2 of General Code).

Sec. 14, creating Sec. 2295-12 Gen. Code (amended in 1923) provides for the payment of all future bond issues by the serial method maturing in substantially equal semi-annual or annual installments.

Section 3939 of the General Code, which enumerates the purposes for which debt may be created, was amended in 1923 (V. 116, p. 2794) and now reads:

Sec. 3939. When it deems it necessary, the council of a municipal corporation, by an affirmative vote of not less than two-thirds of the members elected or appointed thereto, by ordinance, may issue and sell bonds in such amounts and denominations, for such period of time, and at such rate of interest, not exceeding 6% per annum, as said council may determine and in the manner provided by law, for any of the following specific purposes:

1. For procuring the real estate and right of way for an improvement authorized by this section, or for purchasing real estate with a building or buildings thereon, to be used for public purposes, or to be donated to the State of Ohio by deed in fee simple as a site for the erection of an armory.

2. For extending, enlarging, improving, repairing or securing a more complete enjoyment of a building or improvement authorized by this section, and for equipping and furnishing it.

3. For sanitary purposes and for erecting a crematory or providing other means for disposing of garbage and refuse matters, and for erecting public toilet and public comfort stations.

4. For improving highways leading into the corporation, or for building or improving turnpikes, or for purchasing one or more turnpike roads and making them free.

5. For constructing wharves and landings on navigable waters.

6. For erecting infirmaries.

7. For erecting workhouses, prisons and police stations.

8. For erecting houses of refuge and correction.

9. For erecting market houses and providing market places.

10. For erecting municipal garages, repair shops, storage houses and warehouses.

11. For erecting public halls and public offices.

12. For erecting or purchasing water works for supplying water to the corporation and the inhabitants thereof.

13. For erecting or purchasing gas works or works for the generation and transmission of electricity, for the supplying of gas or electricity to the corporation and the inhabitants thereof.

14. For providing grounds for cemteries or crematories, for enclosing and embellishing them, and for erecting vaults.

15. For constructing sewers, sewage disposal works, flushing tunnels, drains and ditches.

16. For establishing free public libraries and reading rooms, and free recreation centres.

17. For the establishment of free public baths and municipal lodging.

18. For erecting monuments to commemorate the services of soldiers, sailors and marines of the State and nation.

19. For improving any water course or water front.

20. For the payment of obligations arising from emergencies resulting from epidemics or floods, or other forces of nature.

21. For purchasing and condemning the necessary land for parks, boulevards and public playgrounds, and for improving it as well as for improving or completing the improving of any existing boulevard, park or parks, or public playgrounds.

22. For erecting hospitals and pest houses and for rebuilding or improving existing hospitals and pest houses.

23. For resurfacing, repairing or improving any existing street or streets as well as other public highways.

24. For opening, widening and extending any street or public highway.

25. For purchasing or condemning any land necessary for street or highway purposes, and for improving it or paying any portion of the cost of such improvement.

26. For constructing levees and embankments or paving or improving them, and for improving any water course, passing through the corporation.

27. For constructing or repairing viaducts, bridges and culverts, and for purchasing or condemning the necessary land therefor.

28. For erecting any building necessary for a fire department, purchasing fire engines, fire boats, constructing water towers, and fire cisterns, and paying the cost of placing underground the wires or other signal apparatus of any fire department, or installing and operating any municipal ice plant for the purpose of manufacturing ice for the citizens of any municipality.

Sec. 2295-9 of the Gen. Code, as amended in 1923, provides the maturities of bonds, notes or other evidence of indebtedness issued by counties and other political subdivisions, including charter municipalities, shall not extend beyond the following limitations as specified in the following classifications, the period to be measured from a date twelve months prior to the date of the earliest maturity, if maturity in annual installments, or six months prior thereto, if maturing in semi-annual installments:

When issued for—

Class (a). The acquisition of real estate or easements or other interests in real estate, grade crossing elimination, and flood prevention, thirty years;

Class (b). The construction or improvement of fireproof buildings or other structures, widening of roads, highways, streets or alleys, general waterworks improvements, sanitary and storm sewers, sewage disposal works, and bridges, twenty-five years;

Class (c). The construction or improvement of non-fireproof buildings or other structures, electric light plant and equipment, police and fire alarm telegraph systems, fifteen years;

Class (d). Waterworks meters, fire apparatus, road rollers, furniture and furnishings, machinery in garbage disposal plant, landscape planting, playground apparatus, sidewalks, curbs, gutters, and the construction, reconstruction, resurfacing, grading or drainage of roads, highways, streets, or alleys, or improvements thereof by boulevard or white-way lighting system, ten years;

Class (e). Motor vehicles other than fire apparatus, wagons and horses, bonds issued to pay judgments for personal injuries or other non-contractual obligations and also for defraying the expenses of an extraordinary epidemic of disease, five years;

Class (f). Lighting, sprinkling, sweeping or cleaning of streets or other public places or other service for which municipal corporations or other political subdivisions are authorized by law to levy special assessments, one year;

Class (g). Purposes not included in the foregoing clauses, such number of years not exceeding thirty as is the estimated period of usefulness of the asset, improvement, or other purpose, such estimate to be made by the fiscal officer;

Class (h). A single bond issue for a purpose which includes two or more of the foregoing classes, the average number of years of usefulness as measured by the weighted average of the amounts proposed to be expended for said several classes in accordance with above table of maturities; such estimating and calculation of average to be made by the fiscal officer.

TAX LIMIT LAW.—The original "Smith 1% Law," so-called, passed May 10 1910, was not approved by the Governor, but was allowed to become a law without his signature. (101 O. L. 430.) The original law, in so far as it directly affected tax rates, contained only Sections 5649-1 to 5649-5, incl. (Gen. Code); Sections 5649-3a to Sections 5649-3e (Gen. Code) were added in 1911, and all the sections of the Act except the first one were amended. This Act was approved by the Governor June 2 1911, and it is commonly referred to as the Smith 1% Law. (102 O. L. 266.) It provided:

(*a*) That no more taxes should be levied in any taxing district in 1911 than in 1910;

(*b*) That increased taxes of 6% might be levied in 1912; 9% in 1913 and 12% in any year thereafter.

(*c*) That levies for county purposes should be limited to 3 mills, for municipal purposes to 5 mills, for school purposes to 5 mills and for township purposes to 2 mills. (The Supreme Court held in the case of State vs. Sanzenbacher, 84 O. S., 504, that such limitations for county, municipal, school and township purposes are exclusive of levies for sinking fund purposes, to provide for indebtedness incurred prior to June 2 1911.)

(*d*) That these levies for county, municipal, school and township purposes might be increased by a vote of the people.

(*e*) That the aggregate levy for all purposes shall no exceed 10 mills, but sinking fund levies to provide for indebtedness incurred after June 2 1911, by a vote of the people, may be in addition. (The Supreme Court held in the case of the State ex rel. vs. Sanzanbacher *supra* that levies in addition to 10 mills may be made to provide for indebtedness incurred before the passage of the Act.)

(*f*) That the aggregate levy for all purposes, including sinking fund levies and levies authorized by vote, cannot exceed 15 mills.

Amendments.

Sections 5649-2 and 5649-3 (Gen. Code) were amended in 1913 by eliminating from both sections all limitations based upon the amount of taxes levied in 1910.

Sec. 5649-1 (Gen. Code) as amended provides, in substance, that serial bonds shall have priority over current expenses in the application of the proceeds of the limited taxes.

Sec. 5649-3a was amended in 1921 so as to reduce the maximum tax that may be levied for school purposes to 3 mills, and for township purposes to 1½ mills.

Levies under the Cass Road Law are subject to no limitations except the 15 mills and are all to be laid upon municipalities, except the levy authorized by Section 239 of said Law—Township Highway Repair Fund.

There are no limitations whatever to the levies that may be made for emergency purposes in the following cases:

Section 7419. For the repair of roads damaged by flood or other casualties.

Section 4450 and 4451. To meet the expenses of an epidemic or threatened epidemic.

Section 5629. To rebuild or repair a county infirmary or children's home, wholly or partially destroyed by fire or other casualties.

Section 1259-1. For interest and sinking fund levies made necessary on account of bonds issued to enable a municipality to comply with the orders of the State Board of Health in reference to the installation or improvement of its water works, when approved by a majority of the electors of the municipalities.

The Taft Tax Act passed by the 1923 Legislature, which proposed the repeal of the above tax limit of 15 mills and the substitution of a limit of 14 mills on rural tax levies and 17 mills on municipal tax levies (V. 116, p. 2795) was referred to the voters on Nov. 6 and defeated (V. 116, p. 2132).

COUNTY INDEBTEDNESS.—The indebtedness of counties is regulated by Sections 2434, 2435, 2436, 2437, 2438, 2439 and 2440 of the General Code. These sections were amended in 1923. The text of these sections may be found in V. 116, p. 2795 and 2796. They provide:

That the net indebtedness, arrived at by deducting the sinking funds from the total general debt incurred by any county shall never exceed 3% of the first $25,000,000 of the total duplicate, plus 2½% of the second $25,000,000 thereof, plus 2% of the third $25,000,000 thereof, plus 1½% of the fourth $25,000,000 thereof, plus 1% of all amounts by which the duplicate exceeds $100,000,000; provided that in any county where the net indebtedness exceeds such limit at the time the Act goes into effect, the county may issue in any calendar year bonds in a sum not to exceed nine-tenths of the amount of bonds retired during the preceding calendar year, until the net indebtedness is within the limit. In computing the amount of indebtedness subject to the limit the following bonds are not to be considered: (A) Bonds issued in anticipation of special assessments, or township or road district taxes.

(B) Bonds issued for the payment of non-contractual final judgment. (C) Bonds issued prior to 1923 under Sections 5629, 5643, 2432-3 or 2436, or issued thereafter for the purpose of rebuilding county buildings, bridges or sewers wholly or partially destroyed by fire or other casualty, but not exceeding the following total amounts: Bonds for rebuilding county infirmary, $50,000; bonds for rebuilding county children's home, $20,000; bonds for rebuilding county court house, $50,000; bonds for rebuilding bridges, $50,000; bonds for rebuilding other county buildings and sewers, $30,000.

That the County Commissioners shall not issue bonds for the purpose of acquiring property or permanent fixed equipment for or building any county court house, county offices, jail, county infirmary, detent on home, county hospital, building in memory of Ohio soldiers, or other county building, or any district tuberculosis hospital or joint county workhouse, or other district or joint county building or any county bridge, or any main or trunk county sewer except under Sections 2432-1 and 2432-2 of the General Code, the cost of which together with the acquisition of a site therefor is in excess of $20,000, without first submitting the question to the voters and shall not issue bonds for the payment of the county's proportion of the cost of the construction and improvement of inter-county highways and main market roads in co-operation with the Department of Highways and Public Works or the Federal Government or both and for the payment of the county's proportion of the cost and expense of the construction, reconstruction or improvement of roads under the provisions of Sections 6906 to 6956 of the General Code, and of the amount of compensation fixed for any toll road appropriated under the provisions of Section 7405-1 of the General Code, and the cost and expenses of such appropriations, which will make the net indebtedness on bonds hereafter issued for such purposes greater than one-third of the total net indebtedness that might be incurred

without first submitting to the voters, and shall not issue bonds for paying the county's share of inter-county highway improvements in co-operation with the Department of Highways and Public Works or the Federal Government, which will make the net indebtedness on bonds issued greater than 1% of the tax duplicate of the county without submission to the voters.

TOWNSHIP ROAD DEBTS.—The Act of the 1923 Legislature, mentioned above, also regulates the issuance of road bonds by townships. Section 30 of the Act limits such bond issues to 1½% of the property valuation Section 30 follows:

Sec. 30. The trustees of any township may issue bonds bearing interest at a rate not in excess of 6% per annum to pay the township's proportion of the cost and expense of the construction, reconstruction and improvement of inter-county highways and main market roads in co-operation with the Department of Highways and Public Works or the Federal Government or both if the improvement is made on the application of the Township Trustees, or to pay the township's proportion of the cost and expense of the construction, reconstruction and improvement of county roads under the provisions of Chapter 6, Part 2, Title 4 of the General Code, or to pay the cost and expense of constructing, reconstructing and improving roads under the provisions of Sections 3298-1 to 3298-15n, and of Sections 3298-25 to 3298-53a of the General Code. Bonds issued to pay the cost and expense of constructing, reconstructing and improving roads under the provisions of Sections 3298-25 to 3298-53a of the General Code shall be issued only against the property included in the township road district, and levies to pay interest and principal of such bonds shall only be made against the property within the limits of such road district. Provided that the net indebtedness created or incurred by any township for road bonds heretofore issued, and hereafter issued under the provisions of this section shall never exceed 1½% of all the property in such township as listed or assessed for taxation. And no such bonds shall be issued without vote of the people except for the purpose of paying the township's proportion of the cost and expense of the construction, reconstruction and improvement of inter-county highways and main market roads. The net indebtedness shall be defined to be the difference between the par value of the outstanding and unpaid bonds, and the amount held for their redemption in the sinking fund, bond fund and other indebtedness retirement funds. The Trustees of any township may issue bonds in anticipation of the levy or collection of special assessments lawfully made by said Trustees. Such bonds shall be full general obligations of the township and the full faith, credit and revenues of the township shall be pledged for the payment thereof.

SAVINGS BANK INVESTMENTS—POWERS AND RESTRICTIONS.—The savings bank laws of Ohio were revised as part of the recodification of the Ohio banking laws in general made at the 1919 session of the Legislature—the new enactment being known as the "Graham Banking Act," which became effective July 11 1919. The provisions regarding savings institutions are contained in Sec. 710-139 and 710-140, and also in Sections 710-111, 710-111a, 710-112, 710-113 and 710-121. At the 1925 session of the Legislature an Act was passed amending paragraphs (b) and (g) of Section 710-111 with regard to the investment by savings banks in foreign, municipal and Government bonds (see V. 120, p. 3222). We quote Sections 710-139 and 710-140 in full as follows:

710-139. SAVINGS BANK INVESTMENTS, LOANS.

Sec. 710-139. A savings bank may invest its funds in or loan money on, discount, buy, sell or assign promissory notes, drafts, bills of exchange, trade and bank acceptances and other evidences of debts; but all such investments or loans made except those secured by mortgages on real estate or pledge of collateral security shall be upon notes, drafts, bills of exchange, trade or bank acceptances, or other evidences of debt, payable at a time not exceeding six months from the date thereof, but not more than thirty per cent of the capital, surplus and deposits of such bank shall be so invested.

710-140. SAVINGS BANKS, INVESTMENTS

Sec. 710-140. A savings bank may invest its funds in:

(a) The securities mentioned in Section 111 of this Act subject to the limitations and restrictions therein contained; except that investments in real estate securities shall be subject to the restrictions contained in Section 112 of this Act.

(b) Stocks of companies, upon which or the constituent companies comprising the same, dividends have been earned and paid for five consecutive years next prior to the investment; provided, every such investment shall be authorized by an affirmative vote of a majority of the board of directors of such savings bank.

No purchase or investment shall be made in the stock of any other corporation organized or doing business under the provisions of this Act or of the National Banking Act of the United States.

(c) Promissory notes of individuals, firms or corporations when secured by a sufficient pledge of collateral approved by the executive committee or board of directors.

(d) Ground rents or certificates of participation or beneficial ownership in improved lands under lease for a period of not less than twenty-five years from the date thereof, and conditioned that the lessee shall pay all taxes and assessments thereon and keep and maintain said premises in full and complete repair, with insurance in an amount equal to the insurable value of the improvements thereon provide that the aggregate par amount of such rents or certificates shall not exceed the value of the land nor sixty per cent of the total value of the land and improvements. But nothing in this section contained shall prevent the investment in such rents or certificates in unimproved lands, where by the terms of the lease thereof the construction of a new building thereon is provided for and funds have been deposited or will be deposited from the proceeds of the sale of such rents or certificates sufficient for the cost of such construction, and conditioned that such constructoin shall begin within six months thereafter and that the funds so deposited shall be paid out to meet the cost of such construction as the work progresses and for no other purpose.

Under Sub-division (a) above there is a reference to Section 111 and Section 112. We insert here the text of these:

710-111. INVESTMENTS (as amended in 1925).

Sec. 710-111. A bank may invest its capital, surplus, undivided profits and deposits in the following securities:

(a) Bonds or other interest-bearing obligations of the United States, the Philippines, Hawaii, Porto Rico and the District of Columbia, or those for which the faith of the United States is pledged to provide payment of the interest and principal, and in Farm Loan bonds issued by Federal Land banks and Joint Stock Land banks.

(b) External bonds or other interest-bearing obligations of any foreign government which has not defaulted in the payment of principal or interest on its external bonds or obligations within a period of twenty years last prior thereto.

(c) Bonds or other interest-bearing obligations of any State or Territory of the United States.

(d) Bonds or other interest-bearing obligations of any county, town, township, city, school district, improvement district or sewer district, or other organized or political sub-division in this State.

(e) Bonds or other interest-bearing obligations of any city, town, county or other legally constituted political or taxing subdivision situated in one of the States of the United States, or any cities of the Philippines, Hawaii or Porto Rico, which city, town, county or taxing subdivision has been in existence ten years and which for a period of ten years previously has not defaulted for a period of more than ninety days in the payment of any part of either principal or interest of any debt contracted by it and whose net indebtedness after deducting the amount of its water bonds and bonds issued for other self-sustaining public utilities and the amount of sinking funds which are available for the payment of its bonds or interest bearing obligations other than water bonds and self-sustaining public utilities, does not exceed ten per cent of the value of taxable property in such city, town, county or political or taxing subdivision to be ascertained by the valuation of property therein for the assessment of taxes next preceding such investment; provided, that no bonds or other interest-bearing obligations of any such county shall be eligible for investment unless such county has a population of not less than ten thousand inhabitants, and, provided that no bonds or other interest-bearing obligations of any such city, town or other political or taxing subdivision shall be eligible for investment unless such city, town or political or taxing subdivision has a population of not less than one thousand inhabitants as ascertained by United States or State census or by any municipal census taken by authority of the State next preceding such investment, and, provided, further, that there shall be eligible hereunder the bonds or other interest-bearing obligations of a political or taxing subdivision which has not been in existence for ten years, but which is erected out of another eligible subdivision or comprises in whole or in part another eligible subdivision or subdivisions or parts of eligible subdivisions if such subdivision shall comply with the other requirements of this paragraph.

But nothing herein contained shall authorize the investment of funds in any special assessment or improvement bonds or other bonds or other interest-bearing obligations which are not the direct obligations of the district issuing same and for which the full faith and credit of the entire district are not pledged.

(f) Bonds or debentures of any Province of the Dominion of Canada.

Bonds or debentures of any city or town or district except school district in the Dominion of Canada having a population of not less than ten thousand inhabitants, as ascertained by official census next preceding such investment and which has not since 1900 defaulted for more than ninety days in the payment of any part of principal or interest of any debt authorized to be contracted by it and which has a net indebtedness exclusive of water debt and bonds issued for other self-sustaining public utilities and the amount of sinking funds available for the payment of its bonds other than water bonds and bonds issued for public utilities, which net indebtedness does not exceed seven per cent of the last valuation of its taxable property for the assessment of taxes preceding such investment, and in all other respects such bonds shall conform to the requirements of Clause E of this section; and in the bonds or obligations of any city, town or district therein unconditionally guaranteed as to payment of principal and interest by the Dominion of Canada or any province thereof.

(g) Bonds of any governmental subdivision or city of any foreign country, which governmental subdivision or city has a population of not less than one hundred thousand inhabitants and whose net indebtedness does not exceed seven per cent of the last valuation of its taxable property for the assessment of taxes preceding such investment exclusive of bonds issued for public utilities and sinking funds other than for public utilities and which has not defaulted for more than ninety days on any installment of any part of principal or interest of any debt authorized to be contracted by it for twenty-five years preceding such investment.

(h) Bankers' acceptances of the kind and maturity made eligible by law for re discount with Federal Reserve banks, provided the same are accepted by a bank incorporated under the laws of this State or any member bank of the Federal Reserve System.

(i) Mortgage bonds, collateral trust bonds, debenture bonds or notes of any regularly incorporated company which, or the constituent companies comprising which for four years (4) prior to the date of purchase has earned over and above all fixed charges other than interest on indebtedness an amount equal to at least double the interest charges which it will be required to pay upon its outstanding obligations; or mortgage bonds, collateral trust bonds, debenture bonds or notes of any regularly incorporated company, which bonds or notes, plus all prior incumbrances are outstanding in an amount not in excess of 50% of the actual value of the property securing said bonds or notes.

(j) Railroad equipment bonds or car trust certificates issued in the United States or Canada, and bonds secured by first mortgage on steel steamships, in an amount not exceeding 50% of the value of such vessels.

(k) Bonds or notes secured by first mortgage on improved real estate as defined in Section 113 hereof of not more than 60% of the value thereof.

All securities as enumerated above, having a fixed maturity shall be charged and entered upon the books of the bank at their cost to the bank, and when a premium is paid therefor an annual amortization charge shall be made thereon so as to bring the cost of same to the face value of said bonds at maturity. The Superintendent of Banks shall have the power to require any security to be charged down to such sum as in his judgment represents its value. The Superintendent of Banks may order any securities which he deems undesirable removed from the assets of a bank.

We print below section 113, referred to in subdivision (k):

In 1921 the General Assembly passed a bill supplementary to Section 710 111 by adding a section to be known as Section 710-111 (a) and amending Section 710-121. We give the text of these below:

710-112. REAL ESTATE LOANS.

Sec. 710-112. Loans by banks upon mortgage notes shall be made upon first mortgage upon real estate situated in this State, or in States contiguous thereto, and shall not exceed forty per cent (40%) of the value of such real estate if unimproved, and sixty per cent (60%) of such value if improved, and the improvements shall be kept adequately insured. In the case of commercial banks not more than fifty per cent (50%) and in the case of savings banks and trust companies not more than sixty per cent (60%) of the amount of the paid in capital, surplus and deposits of such bank or trust company at any time shall be invested in such real estate securities. Loans on collateral enumerated in clauses (i), (j) and (k) of Section 111 of this Act, shall not exceed eighty per cent of the value of such collateral.

Sec. 710-113. The term "improved" real estate as used in this Act shall be held to mean land upon which buildings have been erected suitable and intended to be used for residence, business or other purposes and fit for use and occupancy, or under construction for such purposes; and in the case of farm property shall mean tillable lands with farm buildings thereon and actually under use for farm purposes, and when so used the same may include pasture and wood lands.

Sec. 710-111a. Any bank organized under this Act without regard to the amount of its capital and surplus, may file application with the Superintendent of Banks for permission to exercise, upon conditions and under such regulations as may be prescribed by the said Superintendent of Banks, either or both of the following powers:

(A) To invest its capital, surplus, undivided profits and deposits in bonds, notes, trade acceptances, debentures or first lien securities of one or more banks or corporations, chartered or incorporated under the laws of the United States and principally engaged in international or foreign banking, or banking in a dependency or insular possession of the United States, either directly or through the agency, ownership or control of local institutions in foreign countries, or in such dependencies or insular possession; including the bonds, notes, trade acceptances, debentures or first lien securities of one or more banks or corporations chartered or incorporated under Section 25a of the Federal Reserve Act, as approved December 24 1919.

(B) To invest an amount not exceeding in the aggregate ten per centum of its paid capital stock and surplus in the stock of one or more banks or corporations chartered or incorporated under the laws of the United States and principally engaged in international or foreign banking, or banking in a dependency or insular possession of the United States, either directly or through the agency, ownership or control of local institutions in foreign countries or in such dependencies or insular possessions, including the stock of one or more banks or corporations chartered or incorporated under Section 25a of the Federal Reserve Act, as approved December 24 1919.

Every bank organized hereunder and investing in the capital stock of banks or corporations as provided herein, shall be required to furnish information concerning the condition of such banks or corporations to the Superintendent of Banks upon demand.

Sec. 710-121. Not more than twenty-per cent of the capital surplus of a bank doing business under this charter shall be invested in any one stock or security unless it be in bonds or other interest-bearing obligations enumerated in paragraphs a, b, c, d, e and h of Section 111 of this Act; or in the stock or corporation owning the land, building or buildings occupied by such bank for its banking quarters, and then not exceeding sixty per cent of its capital and surplus shall be so invested, which shall be carried on the books of the bank as an investment or equity in real estate; or in the bonds, notes, trade acceptances, debentures or first lien securities of banks or corporations chartered or incorporated under the laws of the United States and principally engaged in international or foreign banking, or banking in a dependency or insular possession of the United States either directly or through the agency, ownership or control or local institutions in foreign countries or in such dependencies or insular possessions, including the bonds, notes, trade acceptances, debentures or first lien securities of one or more banks or corporations chartered or incorporated under Section 25a of the Federal Reserve Act, as approved December 24 1919.

INVESTMENT OF TRUST FUNDS.—The investment of trust funds is regulated by Section 11214 of the General Code. This section was amended in 1923 (V. 116, p. 2795) and now reads as follows:

Sec. 11214. When they have funds belonging to the trust which are to be invested, executors, administrators, guardians, including guardians of the estate of minors, and trustee, may invest them in bonds or certificates of indebtedness of this State, of the United States, or in the bonds or certificates of indebtedness of any county, city, village or school district in this State, on which default has never been made in the payment of interest, or in bonds issued by any bank organized under the provision of the Act of Congress known as the Federal Farm Loan Act, approved July 17 1916, and amendments thereto, or in such other securities as the court having control of the administration of the trust approves.

CITIES, COUNTIES AND TOWNS IN THE

STATE OF OHIO.

[In the following statements of debt we report in detail only those bonds which are a general obligation of the place issuing the same. Lack of space prevents our giving a description of the numerous issues of assessment bonds—that is, bonds payable by assessment against the particular piece of property benefited.]

Net debt not self-supporting	$42,480,600

CITY PROPERTY.—The city owns the Cincinnati Southern RR. The rental received for the road was (under the old lease) $1,090,000 till 1901 and then $1,250,000 till 1906. The old lease expired in 1906, and in 1898 legislation was secured under which, on June 7 1902, the lease was modified and extended to Oct. 12 1966 at an annual rental of $1,050,000 for the first 20 years, $1,100,000 for the second and $1,200,000 for the remaining 20 years. At the time of the extension, there remained of the original term four years, the rental of which was so modified that the sum of $200,000 thereof per annum was extended and made payable at the rate of $40,000 per annum, with 3% interest on the remaining deferred payment which has now been fully paid. The legislation under which

Municipal Bonds

SAVINGS BANK & TRUST CO.
Cincinnati, - Ohio

CINCINNATI (*Concluded*).
the lease was extended also provided for the issuance of $2,500,000 bonds of the city by the trustees of the railway for terminal facilities and permanent betterments, upon the lessee agreeing to pay an additional rental equal to the annual interest thereon and 1% per annum for a sinking fund for the final redemption of the bonds. Legislation has since been secured under which there have thus far been issued $6,900,000 in bonds known as terminal facilities and perm. betterments bonds.

ASSESSED VALUATION &C.—Assessed val. and tax rate have been as follows:

Years—	Assessed Valuation.	Total Tax per 1,000

MIAMI CONSERVANCY DIST.
This district organized in 1915 for the prevention of floods, takes in part of nine counties and includes the cities of Dayton, Hamilton, Middletown, Piqua, Troy, Franklin, Miamisburg and numerous other smaller municipalities, having a total estimate population of 375,000.
5½s'17J-D$21,940,69c*Dec 1'26-'46
5½s'20J-D 9 500,000c*Dec 1 '26-'46
BOND. DT. Apr 19 '26..$31,440,690
The benefits approved by court amount to $78,269,229, or more than twice the estimated cost of work. The bonds are a direct obligation of the district, supported by levies against all the benefited property within the District. The total 1916 grand tax duplicate value of properties assessed for benefits, which includes cities, villages and counties, assessed in units, was $1,-194,816,600. About 50% of the benefits of $78,269,229 are assessed against the real property in the district in proportion to the benefits; 50% against the municipalities within the districts as units.
INT. on the bonds is payable either at the State Treas. office in Columbus or at the National City Bank, New York City.

MIAMISBURG.
This village is located in Montgomery Co. Incorporated Feb. 11 1832.

DEBT, RESOURCES, ETC.

Organized as a Territory (Act May 7 1800)	July 4 1800
Admitted as a State (Act April 19 1816)	Dec. 11 1816
Total area of State (square miles)	36,350
State Capital	Indianapolis
Governor (term exp. 2d Mon. Jan. 1929)	Ed. Jackson
Sec. of State (term exp. Nov. 27 1926)	F. E. Schortemeier
Treasurer (term expires Feb. 10 1927)	Mrs. Ben. H. Urbahus
Auditor (term expires Nov. 24 1926)	Lewis S. Bowman
Att'y-Gen'l (term expires Jan. 1 1927)	Arthur L. Gilliom

LEGISLATURE meets biennially in odd years on the Thursday after the first Monday in January, and sessions are limited to sixty-one days.

HISTORY OF DEBT.—The historical details of Indiana's State debt from 1832 up to 1894 will be found in the "State and City Supplement" of April 1894, pages 85 and 86. The debt of the State, detailed, is as follows: An issue of $340,000 Purdue University bonds, which are in the nature of a trust fund. The U. S. Government gave the State this money, back in the sixties, to be invested in either Government or State bonds, bearing not less than 5% interest. Not being able to get any Government bonds at this rate, the State took the $340,000 for its own use and executed to Purdue University its obligation, which has been twice renewed and has paid the interest, 5% annually, to Purdue University since receiving the money. The State also has the following Indiana Board of Agriculture bonds outstanding:

*** State Fair Ground Bonds.**

4½s	1923	J-J	$50,000	July 1 1926-1927
			250,000	July 1 1928-1932
			150,000	July 1 1933-1934
			400,000	July 1 1935-1938
			125,000	July 1 1939

*Coupon bonds with privilege of registration as to prin. Int. payable at the Northern Tr. Co., Chicago, or Fletcher American Co., Indianapolis, at holder's option.

FINANCIAL STATEMENT.—The following is a statement of debt sent to us under date of Jan. 2 1926 by the Legislative Bureau. Charles Kettleborough, Director:

STATE DEBT.

Purdue University—Non-negotiable 5% bonds	$340,000 00
Temporary loans Sec. 1, Chapter 168, Acts 1913	1,000,000 00
Total	$1,340,000 00

There was a cash balance of $8,628,021.83 in the treasury on Sept. 30 1925. This balance was distributed among the various funds as follows: General fund, $1,784,288.10; vocational education fund, $99,688; unclaimed estates, $21,582.39; school revenue for tuition fund, $1,123,177.40; Fire Marshal fund, $87,049.42; hydrophobia fund, $19,380.25; State highway Commission fund, $1,361,612.54; auto theft fund, $491,710.72; World War Memorial fund, $1,169,303.26; Benevolent Institutional fund, $1,193,012.68; road fund, $430,895.83; teachers' retirement fund, $79,786.05; rotary fund, $577,996.08; Agricultural Experiment Station, $55,981.92; swamp land fund, $7,592.80; Dunes Park fund, $124,223.16.

ASSESSED VALUATION.—The following table shows the total valuation of real and personal property, including railroad and other property; also the State tax rate (per $1,000) *for the general fund* for the years indicated. By an Act of the Legislature of 1905 the General Fund tax was fixed at $1.20 per $1,000 for each of the years 1905, 1906, 1907, and 90 cents per $1,000 annually thereafter; the law also stopped levy for sinking fund until 1908, when it was again resumed, but in 1913 the rate was reduced to $0.70. The Legislature of 1917 made a further reduction, placing the tax at $0.40. In 1919 the Legislature provided that the State Tax Commission, with approval of the Governor and the Auditor of State, should fix a general tax sufficient to cover appropriations made. For 1919 the rate was $0.20 and for 1920 and 1921 only $0.10. The tax for 1922 was $0.20 1923, $0.30; 1924, $0.28; and for 1925, $0.28.

Years—	Valuation.	Gen'l Fund Tax.	Years—	Valuation.	Gen'l Fund Tax.
1925	$5,271,576,485	$0.28	1910	1,797,486,410	0.90
1924	$5,364,826,041	0.28	1909	1,776,132,096	0.90
1923	5,281,804,728	0.30	1908	1,723,311,564	0.90
1922	5,225,692,395	0.20	1907	1,717,037,215	1.20
1921	5,751,755,009	0.10	1906	1,654,888,461	1.20
1920	5,838,717,040	0.10	1905	1,597,560,087	1.20
1919*	5,749,278,800	0.20	1904	1,543,000,000	0.90
1918	2,199,086,651	0.40	1903	1,513,433,644	0.90
1917	2,125,388,598	0.40	1902	1,394,808,242	0.90
1916	2,044,381,648	0.70	1901	1,360,445,139	0.90
1915	1,967,434,018	0.70	1891	1,255,256,038	1.20
1914	1,939,876,166	0.70	1880	764,287,517	1.20
1913	1,898,207,235	0.70	1870	662,283,178	1.50
1912	1,890,460,710	0.90	1860	455,011,378	1.50
1911	1,891,601,167	0.90	1850	138,362,085	2.50

The total State tax, including all purposes, was $2.40 per $1,000 in 1921 $2.70 in 1922, $3.00 in 1923 and $2.80 in 1924 and 1925.

* Section 3 of Chapter 59 of the General Laws of 1919 provided for a revaluation of all taxable properties at its true value.

POPULATION OF STATE.—

1920	2,930,390	1870	1,680,637
1910	2,700,876	1860	1,350,428

		1820	147,178
		1810	24,520
		1800	5,641

DEBT LIMITATION.—In the present constitution of Indiana, which went into effect Nov. 1 1851, and was amended in 1881, there are explicit provisions limiting the power of both the State and its municipalities to contract debt.

FIRST, as to the State. Section 5 of Article 10 provides that no debt except to meet casual deficits in revenue, to pay interest, to repel invasion, &c., can be contracted. The section in full is subjoined.

CREATION OF DEBT FORBIDDEN.—No law shall authorize any debt to be contracted on behalf of the State except in the following cases: To meet casual deficits in the revenue; to pay interest on State debt; to repel invasion, suppress insurrection, or, if hostilities be threatened, provide for the public defense.

[The 1923 Legislature proposed to submit to the voters an amendment to the Constitution providing for payment of a bonus to war veterans, but the bill was vetoed by the Governor.—V. 116, p. 1209.]

In the sixth section of the same article the last clause prohibits the assumption by the State of the debts of any municipality or corporation. The clause referred to reads as follows:

"Nor shall the General Assembly ever on behalf of the State, assume the debts of any county, city, town or township, nor of any corporation, whatever."

SECOND, as to municipalities, the provision contained in the constitution seems to be equally clear and emphatic, and, as will be found, fixes the limit at 2% of the valuation. It is Article 13 of that instrument (an amendment to the 1851 constitution adopted March 14 1881) which relates to this subject, and we quote the article as follows:

LIMITED—EXCESS VOID.—No political or municipal corporation in this State shall ever become indebted in any manner or for any purpose to an amount in the aggregate exceeding 2% on the valuation of the taxable property within such corporation, to be ascertained by the last assessment for State and county taxes previous to the incurring of such indebtedness; and all bonds or obligations in excess of such amount given by such corporation shall be void; *Provided*, That in time of war, foreign invasion or other great public calamity, on petition of a majority of the property owners in number and value, within the limits of such corporation, the public authorities in their discretion may incur obligations necessary for the public protection and defense to such an amount as may be requested in such petition.

It should be said in connection with the above that several laws have been enacted since the foregoing constitutional limit was adopted (March 14 1881), and bonds have been issued by counties thereunder *beyond the 2% limit*, for the construction of "free gravel, stone or other macadamized roads." Several such laws were passed at the 1899 session of the Legislature. But in the case of Strieb vs. Cox, Treas., 111 Ind., the Supreme Court of Indiana held that gravel road bonds are not properly indebtedness of the county—hence do not come within the inhibition of Section 13 of the constitution. (See editorial in "State and City Supplement" for October 1899, page 3.)

THIRD, counties (but no other kind of municipality) are prohibited from subscribing for any stock in a corporation unless paid for at time of such subscription. The section which covers this subject is Section 6 of Article 10, and is as follows:

COUNTIES CANNOT TAKE STOCK.—No county shall subscribe for stock in any incorporated company unless the same be paid for at the time of such subscription; nor shall any county loan its credit to any incorporated company, nor borrow money for the purpose of taking stock in any such company; nor shall the General Assembly ever on behalf of the State assume the debts of any county, city, town or township, nor of any corporation whatever.

The prohibition which this section contains applies, as already stated, only to counties. Consequently the Legislature was at liberty to authorize cities to subscribe to the stock of railroads, as it did by a general law passed in 1869, granting the power to subscribe to the stock of any railroad running into or through any city or near its corporate limits. Other laws of a somewhat similar character have been passed at other dates. We notice one law, too (Section 5502, Burns's Annotated Statutes, revision 1914), which authorizes counties bordering on the State line, or any township or city situated in such county, to subscribe for railroad stock. In that law no attempt is made to endow counties with power to issue bonds for this purpose (thus obeying the mandate of the constitution), though by the succeeding section cities are given authority to issue such bonds.

COUNTIES are apparently restricted by statute to a lower percentage than the constitutional limit of 2% in the matter of creating certain kinds of debt. For instance, Section 5991 of Burns's Annotated Statutes, 1914, authorizes any county to issue bonds when necessary to construct, complete or repair court house, jail or other county buildings, or to fund existing debt; in those cases county commissioners may borrow for that purpose not exceeding 1% on assessed valuation and issue bonds therefor, provided that no second or subsequent loan shall be made or authorized so long as any former loan made under the provisions of the Act shall remain unpaid. From Section 6094 it appears, moreover, that whenever the *aggregate* indebtedness, funded or otherwise, of any county having a voting population of over 20,000 amounts to or exceeds 1%, it is not lawful to increase such indebtedness in any manner or form except only by temporary loans in anticipation of the revenue of the then current fiscal year and not exceeding two-thirds of the amount of the county tax duplicate of the preceding year.

Limit of 1% may be exceeded in counties for funding purposes in certain cases where the aggregate indebtedness in 1879 exceeded 1% (see Burns's Revised Statutes, 1914, Section 6092); also for temporary loans (see Burns's Revised Statutes, 1914, Section 6094).

Also the limit of 2% may be exceeded for the purpose of making gravel roads (see above), the Supreme Court having decided that gravel road bonds are not properly an indebtedness of the county. The amount of such bonds that may be issued without the consent of the voters is limited to 2% of the assessed valuation of the township benefited by the improvement in the case of township roads and to 1% of the county valuation in the case of county unit highways. If petitioned for by the people and approved by the voters, additional debt may be created in either instance, but not to exceed 2% of the valuation for township roads and 1% for county unit highways. The full text of the Act containing these provisions may be found in the "Chronicle" of June 16 1923, p. 2794.

Park districts and sanitary districts situated in first class cities may issue bonds in aggregate amounts not to exceed ½% and 8-10%, respectively, of the assessed valuation of property, the bonds issued to be considered direct obligations of the issuing districts.

In addition to the foregoing, general statutes have been passed by the Legislature granting general powers to cities and towns to issue bonds for legitimate corporate purposes, subject, however, to the constitutional limit of 2% on valuation. But we have not the space to set out here the details of the other legislation applicable to cities of larger and smaller population, and covering specific purposes, such as water works, &c.

[An Act was passed by the 1917 Legislature (Chapter 87, Laws of 1917) creating a State Highway Commission, providing for the construction, reconstruction, maintenance, repair and control of public highways, and providing for co-operation with the Federal Government in the construction of rural post roads. The Attorney-General under date of April 25 1918 advised us "that it is extremely probable that the constitutional debt limitation of 2% applies to bonds issued for the construction of highways under this Act."]

GRAVEL ROAD LAW OF 1905.—The State Supreme Court in November 1909 decided that this Act was unconstitutional on the ground that it contained provisions which were such as to make it a local and special Act. The decision was based on that part of the law which provides that "whenever a petition signed by fifty or more freeholders and voters of any township in any county in this State includes any incorporated town or city in such township having a population of less than 30,000 inhabitants, praying," &c., the commissioners shall proceed to carry out the provisions of the Act. Upon rehearing, however, it was pointed out that this section as printed contained a clerical error, and the Court on Jan. 25 1910 reversed itself and upheld the contention that the word "includes" should be read "including", thereby making eligible to become petitioners for gravel roads any freeholder and voter in any township with the exception of those residing in incorporated towns and cities of over 30,000 inhabitants, which latter should be neither taxed nor eligible to participate in such proceeding. See V. 90, p. 316.

EXEMPTION FROM TAXATION.—Provisions for exemption from taxation of State, county and municipal bonds are contained in sub-divisions 20 to 23, incl., of Section 1, Chapter 4, Acts of 1921, approved Feb. 8, and Sec. 37, Chapter 262, Acts of 1921, approved Mar. 11, which read as follows:

Twentieth. All bonds, notes and other evidences of indebtedness, hereafter issued by the State of Indiana or by municipal corporations within the State upon which the said State or the said municipal corporations pay interest, shall be exempt from taxation.

Twenty-first. That all bonds hereafter authorized by any county or township in the State of Indiana for the purpose of building, constructing and paying for the construction of any free gravel, macadamized or other improved roads, shall be exempt from taxation: *Provided*, Said bonds shall not bear a greater rate of interest than 5% interest per annum, payable semi-annually.

Twenty-second. Old bonds and other evidences of indebtedness hereafter issued by or in the name of any municipality or other political or civil sub-division of the State of Indiana, or by or in the name of any taxing district in the State of Indiana, for the purpose of paying the cost of acquisition, construction, improvement, or maintenance of streets, highways, drains, levies, parks, docks, waterways, boulevards, playgrounds, bridges, sewage-disposal plants and other improvements of public benefit, and which bonds or other evidences of indebtedness are payable from special assessments or special taxes, shall be exempt from taxation, unless otherwise expressly provided in this section.

Twenty-third. All bonds, notes, mortgages and other evidences of indebtedness heretofore or hereafter issued and negotiated by the Indiana State Board of Agriculture, pursuant to the provisions of any statute then in force, shall be exempt from taxation.

Sec. 37. All bonds hereafter authorized by any board of county commissioners for the establishing, laying out, opening, changing, widening, grading, draining and constructing any highway wholly within a county or upon a county line under the provisions of this Act, shall be exempt from taxation, but said bonds shall not bear a greater rate of interest than 6%, payable semi-annually.

STATE INCOME TAX PROPOSED.—The 1925 Legislature approved for the second time, it having first been approved by the 1923 Legislature, a proposed Constitutional amendment to permit that body (Legislature) to levy an income tax. The amendment will be submitted to the voters of the State at the general election in 1926, and if adopted will become Section 8 of Article 10.

LEGALITY OF BONDS ISSUED IN APPLICATION OF 1919 CONTRACTORS' RELIEF LAW QUESTIONED.—A decision handed down in Nov. 1921 by the State Supreme Court, declaring the Contractor's Relief Law unconstitutional, has raised the question of whether bonds issued in the application of the law are legal (V. 113, p. 2527). This was a law passed at the 1919 session of the Legislature, the purpose of which was to give relief to contractors for county highway work who entered into contracts prior to June 1 1917, and who, because of conditions resulting from the war with Germany, were unable to carry out the provisions of their agreements without losses. Relief was furnished, under the Act, by allowing the county to pay for portions of the work completed at the contract price and to release the contractor from further performance of the contract; or, if work had not started, by the complete cancellation of the contract. Another section of the Act provided that, if the county commissioners re-let a contract, which had previously been canceled under the Act, and it was found that the funds realized by the sale of bonds for the payment of the original contract price, were insufficient to pay for the improvement, under the new contract, the county commissioners could issue additional bonds in a sum equal to the deficiency.

SAVINGS BANKS INVESTMENTS—POWERS AND RESTRICTIONS.—The provisions regulating the investments and loans of savings banks in the State of Indiana, are contained in Sections 19 to 24, inclusive, of Chapter 6 of the Banking Law, originally passed in 1869, and amended in 1875, 1893 and 1903, as published in the report of the Banking Department for 1921. Chapter 153 of the General Laws of 1919 permits the investment of savings funds in bonds issued by any Federal Land Bank or Joint Stock Land Bank organized under the Federal Farm Loan Act.

We give Sections 19 to 24, inclusive, in full below, together with Chapter 153 of the General Laws of 1919, which in their present form are as they now stand:

INVESTMENT OF FUNDS.—Sec. 19. It shall be lawful for the trustees of any savings bank to invest the money deposited therein only as follows, to wit:

First. In the bonds or notes of the United States.

Second. In the notes or bonds of the State of Indiana.

Third. In the orders or bonds of any county, township, city or town in this State, or of any other State of the United States, issued pursuant to the authority of law.

Fourth. In the notes or bonds of any State in the Union that has for five years previous to such investment being made regularly paid the interest on its legal bonded debt in lawful money of the United States.

Fifth. In bonds or notes secured by first mortgage on real estate situate in the State of Indiana, or in any adjoining county in an adjoining State, worth at least twice the amount loaned thereon.

Sixth. In promissory notes, payable at some chartered bank within this State, and having not to exceed twelve months to run from the date of the loan or purchase, made or endorsed by two or more responsible freeholders, one of whom at least shall be a resident of the State of Indiana, and no such promissory note shall exceed the amount of $10,000.

Seventh. In real estate subject to the provisions of Section 24.

Eighth. In dealing in exchange by purchasing and selling sight or time drafts or acceptances payable out of this State, but no such draft or acceptance shall exceed $10,000, nor have to exceed 120 days to run from the time of the purchase thereof.

RESERVE.—Sec. 22. The trustees may keep in reserve not exceeding 20% of the total amount of deposits without investment, or deposit the same on call with or without interest, in any bank organized under the laws of this State or in any bank in any adjoining State, organized under the laws of such State, or in any national bank in the United States. Provided, That no such deposit shall be made outside the State of Indiana excepting in national banks as aforesaid without the approval of the Auditor of the State of Indiana.

RESTRICTION ON LOAN.—Sec. 23. No loan shall be made upon the security of real estate, as provided in subdivision 5 of section 19, or upon notes or bills as provided in subdivision 6 of said section, without the consent of a majority of the trustees, or the unanimous consent of the committee of investment, which may be created under the by-laws of such bank.

REAL ESTATE PURCHASES.—Sec. 24. It shall be lawful for the trustees of any savings bank to purchase, hold and convey real estate as follows, and not otherwise:

First. A lot and banking-house requisite for the transaction of its business, and for an income from such portions of the same as are not required for its own use.

Second. Such as shall have been mortgaged to it in good faith for money loaned, or upon which it shall have purchased a mortgage.

Third. Such as shall have been purchased at sales upon judgments or decrees obtained upon claims in favor of the bank, or which may be so purchased to prevent loss upon claims held by the bank.

Chapter 153 General Laws of 1919—That any life insurance, fire insurance, live stock insurance, casualty or accident insurance, or bonding or surety company, or trust company, or saving bank, now or hereafter organized under the laws of the State of Indiana, in addition to the investment of its funds as now provided by law, be and hereby is authorized and empowered to invest its funds in the bonds issued by any Federal Land Bank or Joint Stock Land Bank organized under the Federal Farm Loan Act.

State of Illinois.

ITS

DEBT, RESOURCES, ETC.

Organized as a Territory (Act Feb. 3 1809)—March 1 1809
Admitted as a State (Act April 18 1818)—Dec. 3 1818
Total area of State (square miles)—56,665
State Capital—Springfield
Governor (term ends Jan. 1929)—Len Small
Lieut.-Governor (term ends Jan. 1929)—Fred E. Sterling
Sec. of State (term ends Jan. 1929)—Louis L. Emmerson
Aud. of Public Accts. (term ends Jan. 1927)—Oscar Nelson
Treasurer (term ends Jan. 1929)—Omer N. Custer
Attorney-General (term ends Jan. 1929)—Oscar Carlstrom

LEGISLATURE meets biennially in odd years on the Wednesday after the first Monday in January, and there is no limit to length of sessions.

HISTORY OF DEBT.—The historical details of the State debt of Illinois from 1829 to 1870, when the debt was all paid off, will be found in the "State and City Supplement" of April 1894, page 91.

BONDED DEBT.—The debt of the State up to Oct. 1921 consisted of only $17,500 bonds, which had not been presented for payment at maturity. Since then the State has floated several loans. The debt now consists of:

Loans—Name & Purpose.			*Interest*—Rate.	*Interest*—Payable.	*Principal*—When Due.	*Outstanding.*
Highway Bonds		1921	4%	-------	May 1 '27-'35	$4,500,000

All the above bonds are coupon bonds with privilege of registration. Int payable at State Treasurer's office and in Chicago and New York.

The bonded debt of the State on April 1 1926 was $141 077,500. On the same date the balances in various State funds totaled $29 966 202 49 and included the following more important items: Revenue fund, $3,506 025.74; University of Illinois fund, $847,084 09; road fund, $7,169,130 69; State bond road fund, $5 068,478 57; State teachers' pension & relief fund, $181,700 21; local bond fund, $248,827 95; waterway fund, $3,596 549 44; waterway bond fund, $210 423 69; soldiers' compensation fund, $429,283 90; Normal School revolving fund, $106 028 23; U. S. Veterans' Bureau fund, $213,640 29; game & fish fund, $662,084.

CANAL BONDS.—At the general election in November 1908 the people by a vote of 692,522 "for" to 195,177 "against" adopted an amendment to the State constitution which provides for the issuance of not exceeding $20,000,000 bonds, to construct a deep waterway or canal, and to erect, equip and maintain power plants, locks, bridges, dams and appliances suitable for the development and utilization of the water power. V. 85, p. 1289, and V. 87, p. 1372. On Feb. 21 1917 the State Supreme Court handed down a decision upholding an Act passed by the 1915 Legislature and approved on June 18 1915 providing for the issuance of $5,000,000 of these bonds V. 104, p. 877. The proposition has received the approval of the Secretary of War and the War Department. V. 106, p. 623.

ROAD BONDS.—An amendment to the State Constitution, which provides for a bond issue of $60,000,000 to build a system of hard roads, was voted by the people at the general election held Nov. 6 1918. The State Supreme Court in April 1919 sustained the decision of the Circuit Court of Sangamon County in refusing to enjoin the State officials from carrying out the provisions of the law (V. 108, p. 1633). All of these bonds have been issued. At the 1923 session the Legislature passed an Act providing for an additional $100,000,000 bonds for road improvements. This measure was submitted to the voters in November 1924 (see V. 116, p. 2505, and V. 117, p. 112), and was carried. The final count was 1,561,637 for to 1,544,250 against.

SOLDIERS' BONUS BONDS.—A proposition to issue $55,000,000 soldier's bonus bonds was submitted to the voters in November 1922. At that election the question carried by a vote of 1,220,815 "for" to 502,372 "against." Following the voters' approval, the Act was attacked in the Courts as unconstitutional, but the final decision upheld the validity of the measure. V. 116, p. 965, 1682. These bonds have now been all issued. $54,650,000 of the bonds were offered and sold at public sale, the other $350,000 were used in lieu of cash in the settlement of the bonus claims under the option given to ex-service men in demanding settlement in cash or bonds.

EQUALIZED VALUATION.—The total equalized valuation has been as follows in the years named. The tax rate for 1925 was fixed by the Governor, the Auditor of Public Accounts and the State Treasurer at 85c. on the $100 of equalized valuation. The General Assembly, at its session in 1919, abolished the State Board of Equalization and substituted a Tax Commission which performs all the duties formerly performed by the State Board of Equalization.

Years.	*Equalized Val.*	*Years.*	*Equalized Val.*	*Years.*	*Equalized Val*
1925---y	$4,194,769,417	1915---	$2,499,311,888	1900*---	$809,733,405

1917---	2,577,990,810	1905 ---	1,095,681,557	1878-----	857,235,762
1916---	2,502,086,976	1901*---	999,231,829	1873-----1	355,401,317

*For explanation as to the falling off of values in the year 1900, see letter of State Auditor in V. 74, p. 741. *z* Property assessed at 1-3 true value instead of 1-5. *y* Property now assessed at ⅓ true value instead of 1-3—see remarks below.

Under a law passed Feb. 25 1898 there is a general assessment of real estate but once in every four years instead of annually; personal property is listed every year. The law also provided that property shall be appraised at full value, but assessed at only one-fifth of such value. This law was changed, however, by an Act passed in 1909 which provided for the assessment of property at one-third of the actual value. The new basis of assessment went into effect in 1909, with the result that values for that year showed large increases while the tax rates were decreased correspondingly. In 1919 the assessed value of property was again changed by the General Assembly, this time to the basis of one-half the full value instead of one-third, causing a further large increase in assessed values.

POPULATION OF STATE.—

1920	6,485,280	1890	3,826,352	1860	1,711,951	1830	157,445
1910	5,638,591	1880	3,077,871	1850	851,470	1820	55,211
1900	4,821,550	1870	2,539,891	1840	476,183	1810	12,282

DEBT LIMITATION.—No State has more carefully restricted the creating of debt than Illinois, if we may judge from the provisions of its present constitution. The limitation has apparently been progressive. Nothing of it is to be found in the constitution of 1818. The constitution of 1848 contained no reference to municipalities, but had in it stringent restrictions limiting to $50,000 the power of the Legislature to create State debt, except in case of war, invasion, &c., unless the law proposing the issue of bonds was submitted to a vote of the people. But turning to the constitution of 1870 we find the whole subject of debt-making most thoroughly considered and its basis settled.

First, as to the State, the provisions are not very unlike the provisions of the constitution of 1848, except that as to the limit for casual deficits and failures of revenue, the aggregate which can be created is very properly raised to $250,000. But with that exception and with the further exception for the purpose of repelling invasion, &c., no debt can be contracted unless the law is submitted to a vote of the people at a general election, which law must contain a provision for the payment of interest as it accrues, and previous notice of the election be given by publication for three months prior to such election. These last two restrictions as to interest and notice of election are only found in the 1870 constitution. The sections which cover these matters are as follows: we omit the first portion of Section 18 of Article IV, which relates only to appropriations and payment of appropriations out of funds belonging to the State:

SECTION 18. * * * * *Provided*, the State may, to meet casual deficits or failures in revenues, contract debts never to exceed in the aggregate $250,000, and moneys thus borrowed shall be applied to the purpose for which they were obtained, or to pay the debt thus created, and to no other purpose; and no other debt, except for the purpose of repelling invasion, suppressing insurrection or defending the State in war (for payment of which the faith of the State shall be pledged), shall be contracted, unless the law authorizing the same shall at a general election have been submitted to the people, and have received a majority of the votes cast for members of the General Assembly at such election. The General Assembly shall provide for the publication of said law for three months at least before the vote of the people shall be taken upon the same; and provision shall be made at the time for the payment of the interest annually as it shall accrue, by a tax levied for the purpose or from other sources of revenue; which law providing for the payment of such interest by such tax shall be irrepealable until such debt be paid; *And provided further*, that the law levying the tax shall be submitted to the people with the law authorizing the debt to be contracted

SECTION 20. The State shall never pay, assume or become responsible for debts or liabilities of, or in any manner give, loan or extend its credit to or in aid of, any public or other corporation, association or individual

SECOND, municipal indebtedness is regulated only in the constitution of 1870. In that instrument the subject is dealt with in all its phases. *First* is a provision in Article 8, Section 3, forbidding the General Assembly and every municipality from making any appropriation in aid of any sectarian purpose. *Second* is a "separate section" forbidding any such municipality from becoming a subscriber to the stock of any railroad, &c., or to loan its credit. *Third* is the broad and general provision, Section 12, Article 9, which limits the indebtedness of all municipalities to 5% "on the value of the taxable property therein," &c. We give these sections below:

ARTICLE 8, Section 3. Neither the General Assembly nor any county city, town, township, school district or other public corporation shall ever make any appropriation, or pay from any public fund whatever, anything in aid of any church or sectarian purpose, or to help support or sustain any school, academy, seminary, college, university or other literary or scientific institution controlled by any church or sectarian denomination whatever; nor shall any grant or donation of land, money or other personal property ever be made by the State or any such public corporation to any church or for any sectarian purpose.

ARTICLE 9, Section 12. No county, city, township, school district or other municipal corporation shall be allowed to become indebted in any manner or for any purpose to an amount, including existing indebtedness, in the aggregate exceeding 5% on the value of the taxable property therein, to be ascertained by the last assessment for State and county taxes previous to the incurring of such indebtedness. Any county, city, school district or other municipal corporation incurring any indebtedness as aforesaid shall, before or at the time of doing so, provide for the collection of a direct annual tax sufficent to pay the interest on such debt as it falls due, and also to pay and discharge the principal thereof within twenty years from the time of contracting the same. This section shall not be construed to prevent any county, city, township, school district or other municipal corporation from issuing their bonds in compliance with any vote of the people which may have been had prior to the adoption of this constitution in pursuance of any law providing therefor.

In the case of an issue of Chicago bonds, where the Chicago & North Western Ry. Co. had refused to pay taxes levied for the payment of principal and interest on the bonds, the Supreme Court of Illinois, in upholding the legality of the issue in May 1923, laid down the rule that the 5% constitutional limit may be exceeded in certain circumstances. The railway company had objected that the tax was in part illegal because it was not authorized by the constitution and the statutes, and argued that if the bonds were properly issued and taxes could now be collected to pay them, "the city authorities are obtaining indirectly what they could not obtain directly because of the prohibition against indebtedness extending beyond the constitutional limitation of 5% of the value of the taxable property ascertained by the last preceding assessment." In disposing of this contention the court, after referring to various authorities, expressed the opinion that the constitution and the statutes do not "forbid the city authorities from issuing bonds for the payment of indebtedness that it has incurred in the conduct of the city if they are not able to collect sufficient taxes to pay the same." The Court then went on to say: "Clause 5 of Section 1 of Article 5 of the Cities and Villages Act (1 Hurd's Statutes, 1921, p. 326) gives to the city authorities power to borrow money on the credit of the corporation for corporate purposes, and issue bonds therefor, in such amounts and form, and on such conditions as it shall prescribe." The Court added: "Our attention has been called to no provision of the Constitution, or statutes, and we know of none, which prohibits the issuing of bonds for general corporate purposes of the city."

SEPARATE Sections. [Municipal subscriptions to railroads, &c.] No county, city, town, township or other municipality shall ever become subscriber to the capital stock of any railroad or private corporation, or make donation to or loan its credit in aid of such corporation; *provided, however*, that the adoption of this Article shall not be construed as affecting the right of any such municipality to make such subscriptions where the same have been authorized under existing laws by a vote of the people of such municipalities prior to such adoption.

The foregoing limitation to 5% is general, as will be seen—that is, it applies to all municipalities. With this limitation preserved the Legislature has passed general laws authorizing the City Council in cities and the board of trustees in villages to issue bonds for corporate purposes, for refunding and consolidating debt, for waterworks, &c., and the county board of any county has been authorized by general statute to issue, when it deems it

necessary, county bonds, after submitting the matter to the legal voters of the county at a general election at which a majority vote is required as a prerequisite of the issue. An attempt was made to limit "any county city, township, school district or municipal corporation" in counties containing 125,000 or more inhabitants to 2¼% of the assessed value, but on Jan. 12 1900 the State Supreme Court ruled that this was an arbitrary and unnatural classification of municipalities which could not be sustained. See Vol. 70, p. 242.

By an Act approved June 27 1913, as amended by an Act approved June 29 1921, Forest Preserve districts are authorized to borrow in an aggregate amount not to exceed 1% of the assessed valuation of property within the district, as ascertained by the last equalized assessment for State and county purposes, and to levy a tax for payment of principal and interest of the bonds, not to exceed 1 mill on a dollar of assessed valuation of property.

The matter of the amount of bonds that might be issued on the basis of the debt limitations given has been complicated in late years by changes in the method of assessing property. A letter of the State Auditor in V. 74, p. 741, throws some light on these changes.

BUSSE BOND BILLS.—The Legislature of 1909 passed a series of bills, known as the Busse Bond Bills, enlarging the leeway for the creation of debt by the various municipalities in the State by fixing the assessed value of property at one-third of the actual value instead of one-fifth, as before. With the exception of counties a proportional decrease was made in the maximum rate of taxation. The amendments providing for a decrease in the maximum rate of taxation were held constitutional by the State Supreme Court in January 1910. See V. 190, p. 387. In 1919 the Legislature made a further change by raising the basis of assessed values from one-third the full value to one-half.

NEW BONDS MUST BE SUBMITTED TO A VOTE.—At the 1909 session the Legislature also passed the Jones referendum bill, which provides that all bond issues, excepting those for refunding purposes, must be submitted to a vote and ratified by a majority of those voting on the proposition

WATER CERTIFICATES IN EXCESS OF DEBT LIMIT.—A law was passed in 1899 allowing cities bonded to their legal limit to issue (for the improvement of water-works) certificates against the earnings of the Water Department without regard to the bonded indebtedness. Several municipalities are understood to have taken advantage of this law. In the case of the City of Joliet, however, which attempted to issue bonds under the law, the matter was taken into the courts in a test suit, and an injunction granted by Judge Dibell, who held that the 5% limit could not be exceeded V. 73, p. 94. This decision was confirmed by Supreme Court. V. 74, p 491.

SPECIAL ASSESSMENT BONDS.—Under authority of an Act approved June 14 1897, as amended by the 1921 Legislature, a city, village or town may issue bonds in anticipation of the collection of installments of assessments, the principal amount of bonds not to exceed the amount of installments of tax due, and to be divided into as many series as there are deferred installments, each series of bonds to become due at about the same time as the corresponding installment will mature. [The full text of the law and the amendment may be found in Hurd's Revised Statutes of Illinois, 1911 edition, pp. 404 to 433, incl., and in Laws of 1921, pp. 195 to 199, incl.

IMPROVEMENT BONDS.—There is a kind of improvement bond authorized in some cases which is made a special lien on the land benefited and to which the 5% limit has no reference. We refer to cases which come under the law entitled "To divide cities and villages subject to overflow into improvement districts." This statute provides that any such city or village or part thereof may be laid off into an improvement district for the purpose of draining, raising the grade of the streets and improving the district; that after the cost for the work has been ascertained and been assessed, the assessment may be paid in installments or otherwise, and such city or village may issue bonds sufficient to pay the assessment. In that case the bonds are a lien on the lots, blocks or parts thereof which shall be designated therein; but before the issue the owner of the lots &c., to be charged must endorse upon the back of such bond his consent under seal, in substance, as follows: "I hereby indorse the within bond and consent that the lot or lots or parts thereof therein designated shall become liable for the interest and principal therein named, and the same shall be a lien upon said property from this date until paid off and discharged." The bond when executed by the city or village and so endorsed by the owner shall be recorded in the Recorder's office in the county, and such record shall be a notice of the lien created to the same extent as the record of mortgages is a notice.

We have room to give only this very brief and imperfect outline of this statute. The whole law will be found in Hurd's Revised Statute of Illinois, the 1911 edition, pages 345, 346 and 347.

INCOME TAX PROPOSED.—At the general election, to be held in November 1926, the voters will pass on a proposed amendment to the State Constitution, which would, if adopted, become Section 14 of Article IX, and empower the Legislature to provide by general law for the levy and collection of taxes for public purposes upon persons, property and income.

TAXATION OF MUNICIPAL BONDS.—Under date of June 18 1921, Edward J. Brundage, State Attorney-General, replies to our request regarding this subject as follows: "Under the revenue laws of this State State bonds and bonds issued by political subdivisions of the State are all subject to taxation. The only securities that are exempt from taxes under the laws of this State are securities issued under an Act of Congress where such Act expressly provides that such securities shall be exempt from taxes under the laws of any State."

INVESTMENT OF TRUST FUNDS.—Chapter 140B of the Revised Statutes of 1911 provides that: Investments of trust funds by trustees may, when not otherwise provided by the will, deed, decree, gift, grant, or other instrument creating or fixing the respective trust, be in the bonds of the United States, or of any of the States of the United States, or in the first mortgages upon real estate in any State, or in the bonds of any county, city or municipality in any State, or in the first mortgage bonds of *any* corporation of *any* State upon which no default in payment of interest shall have occurred, for a period of five years, but no trustee shall be authorized by this act to invest trust funds in any bonds in which cautious and intelligent persons do not invest their own money, and any trustee may continue to hold any investment received by him under the trust, or any increase thereof.

CITIES, COUNTIES AND TOWNS IN THE STATE OF ILLINOIS.

NOTE.—For reports of drainage districts not found in alphabetical order among the following, see statements at the end of this State.

CHICAGO. William E. Dever, Mayor; Martin J. O'Brien, Comptroller.
This city is in Cook County. Incorp. Mch. 4 1837; reincorp. Apr. 23 1875. City on Apr. 5 1904 voted in favor of municipal ownership of street railways (V. 78, p. 1408). At election held Apr. 3 1906 propositions for the ownership of street railways and for the issuance of $75,000,000 street railway certificates carried, while the proposition for municipal *operation* of street railways failed. V. 82, p. 824. In a decision handed down in the Circuit Court on Sept. 15 1906 the legality of these certificates was upheld. The case was taken to the Supreme Court (V. 83, p. 712), and by a decision handed down Apr. 18 1907 the certificates were declared invalid. V. 84, p. 949 and 967. At the April 1907 election ordinances granting franchises to the present street railways were ratified by a vote of the people. V. 84, p. 826. The validity of the $8,000,000 5% deficiency bonds of 1921 which were marketed by R. M. Grant & Co. in December 1921, and a portion of which has been paid off (see below) was upheld by the State Supreme Court, which in its decision, after referring to Clause 5 of Section 1 of Article 5 of the Cities and Villages Act (1 Hurd's Stat., 1921, p. 326), added: "Our attention has been called to no provision of the Constitution, or statutes, and we know of none, which prohibits the issuing of bonds for general corporate purposes of the city." For further particulars see V. 116, p. 2297. Ordinance for city traction purchase voted down on April 7 1925. V. 120, p. 1917.

Judgments outstanding Dec. 31 1925, $2,973,426.52; water pipe ext. certfs., $411,851.76; warrants on Treasurer, $1,877,636.61; water certificates, $4,443,700.

CITY PROPERTY.—The city owns buildings and real estate valued on Dec. 31 1925, $304,081,095.40.

EQUALIZED VALUATION.

	1925	1924.
Real est.	1,356,608,936	1,293,019,838
Personal	517,312,830	485,255,647
Total	1,873,921,764	1,788,275,485
City tax (per M)	$29 80	$28.60

The personal property for 1925 includes $85,970,846 of railroad property, for 1924 $80,402,502 of railraod property, for 1923 includes railroad property of $75,300,887, and 1922 includes $73,788,527 of the same property; 1921, $76,194,093; 1920, $78,155,617. The personal property for 1923 also includes bank stock of $144,029,250 and 1922 includes bank stock of $44,668,646. Beginning with 1909, property was assessed at one-third of actual value; formerly one-fifth. In 1919 the law was changed so as to make assessed value one-half the true value.
The tax rate above given is that for city purposes only. In addition to this the several districts of which the city is composed are assessed for their proportion of State and county taxes, and for certain improvements the city in its corporate capacity not being assessable for these purposes.
The total levies made in these different districts in 1923 and 1924 were as follows:

District—	*Tax (per $100).* 1925.	1924.
West	9 18	8.56
South	9 05	8.40
North	9.51	8.86

State Highway Com'r (term exp.June 30 '29) Frank F. Rogers

LEGISLATURE meets biennially in odd years the first Wednesday in January, and there is no limit to the length of session, excepting specia sessions, in attending which members can receive no more than 20 days' pay.

HISTORY OF DEBT.—The historical details of Michigan's State debt up to 1894 will be found in the "State and City Supplement" of April 1894, page 98. In 1864 the State Treasurer reported the funded debt at $3,880,399 and $1,450,472 additional "trust fund debt." The bonded debt of the State was reported as amounting to $83,500,000 in May 1925. The "trust fund debt" on June 30 1923 amounted to $7,063,011.37. The term "trust fund debt" is, however, a misnomer. In explanation it should be said that the U. S. Govt. set aside certain lands in the State of Michigan for educational purposes, and under the Michigan statutes the money received from the sale of these lands is used to pay the general expenses of the State, the law provides, however, that a certain specified rate of interest must be annually figured on the total amount accumulated from said sales and be paid over to the educational institutions specified. The amount of interest to be so paid is raised by taxation.

On June 30 1925 the cash balance in the State Treasury totaled $23,497,843.16 and included the following: General Fund, $3,365,156 20; Primary School Interest Fund, $15,441,895.64; University Interest Fund, $9,602.93; Normal School Interest Fund, $4,855.64; Sundry Deposit Account, $71,789.66; State Insurance Fund, $3,388.77; Michigan War Loan Fund of 1917, $3,087.05; Michigan War Loan Sinking Fund, $77,849.25; Vocational Educational Fund, $291,234.54; Vocational Rehabilitation Fund, $31,929.98; Soldiers' Bonus Fund, $193,494.85; Soldiers' Bonus Sinking Fund, $17,418 34; Highway Bond Sinking Fund, $1,576,761.29; special funds, $2,343,870.78.

EQUALIZED VALUATION.—Since 1856 the equalized valuation had been determined only once in five years. The following shows the equalized valuation and tax rate for State purposes.

Year.	*Equalized Val.*	*Tax Rate.*	*Year.*	*Equalized Val.*	*Tax Rate.*
1925	$7,361,035,000	$2.75	1915	$2,800,000,000	$3.40
1924	7,007,917,000	2.76	1911	2,288,000,000	2.85
1923	6,540,000,000	2.86	1906	1,734,100,000	1.95
1922	5,628,621,291	3.46	1896	1,105,100,000	1.871
1921	5,000,000,000	2.44	1886	945,450,000	1.272
1920	4,500,000,000	2.58	1876	630,000,000	1.144
1919	4,500,000,000	3.87	1866	307,965,843	1.889
1918	2,800,000,000	3.07	1856	137,663,009	0.472
1917	2,800,000,000	2.39	1846	29,369,065	2.50
1916	2,800,000,000	2.21			

The assessed valuation of real estate and personal property in 1925 was $6,954,262,131; in 1924, $6,458,613,843; in 1921, $5,483,535,114; in 1920, $5,319,702,886; in 1919, $4,503,980,981; in 1918, $4,218,781,678; in 1917, $4,027,364,717, and in 1916, $3,625,142,971.

POPULATION OF STATE.—

1920	3,668,412	1880	1,636,937	1840	212,267
1910	2,810,173	1870	1,184,059	1830	31,639
1900	2,420,982	1860	749,113	1820	8,896
1890	2,093,889	1850	397,654	1810	4,762

From 1860 to 1870 increase was 434,946, or 58.1%; from 1870 to 1880 452,878, or 38.25%; from 1880 to 1890, 456,953, or 27.92%. From 1890 to 1900 the increase was 327,092, or 15.6%. From 1900 to 1910 the increase was 389,191, or 16.1%, and from 1910 to 1920 858,238, or 30.5%.

ROAD BONDS.—The 1921 Legislature passed an Act (No. 65), amendatory to an Act of the 1919 session, authorizing the State to issue bonds for highway and bridge purposes, in amounts not to exceed $10,000,000 for any one year, or $50,000,000 in the aggregate.

DEBT LIMITATION.—*State.*—Michigan, as noted in our history of the State's debt, started its career as a State in Jan. 1837, when the whole land

Watling, Lerchen & Company

MUNICIPAL AND CORPORATION BONDS

DETROIT

was buoyant over its inflated enterprises carried on at public expense. So to be abreast of the times, instead of putting any limit on the power of the State to create debt, it put into its constitution a notice to the Legislature to go to work at once and make provision for "ascertaining the "proper objects of improvement in relation to roads, canals and navigable "waters," that the money might be raised and these improvements might be prosecuted with as little delay as possible.

That was the spirit which ruled and the condition which prevailed in 1837 In 1850 Michigan made and adopted another constitution During the years which intervened the people had gained a wide experience and had evidently profited by it. Hence we find them at the latter date showing a purpose to make an instrument in its financial features about as dissimilar from the one it was to supplant as it could well be, and this purpose is continued in the new constitution approved by a popular vote on Nov. 3 1908. The provisions of the 1908 constitution concerning the debt-making power of the State are contained in Sections 10,11, 12, 13 and 14 of Article X. These sections, as they stood at the time the constitution was adopted, gave to the State very little power to incur indebtedness. The only debt that was allowed to be created under them was $250,000 to meet deficits in revenue, except for the defense of the State in time of war. Following the close of the World War, however, the eager desire to improve the highway system of the county and to reward the war veterans by paying them a bonus had its effect upon the financial policy of Michigan. The first step in the new direction was completed in April 1919, when the voters approved an amendment to Sec. 10, which permitted the issuance of $50,000,000 bonds for road improvements. Then in April 1921 the people added another $30,000,000 bond issue, this being for the payment of a bonus to the war veterans. The authorization of this second issue was made by adding Section 20 to Article X. The different sections follow:

Sec. 10. The State may contract debts to meet deficits in revenue, but such debts shall not in the aggregate at any time exceed two hundred fifty thousand dollars. The State may also contract debts to repel invasion, suppress insurrection, defend the State or aid the United States in time of war. The money so raised shall be applied to the purposes for which it is raised or to the payment of the debts contracted. The State may borrow not to exceed fifty million dollars for the improvement of highways and pledge its credit and issue bonds therefor on such terms as shall be provided by law.

SECTION 11. No scrip, certificate or other evidence of State indebtedness shall be issued except for such debts as are expressly authorized in the constitution.

SECTION 12. The credit of the State shall not be granted to or in aid of any persons, association or corporation, public or private.

SECTION 13. The State shall not subscribe to nor be interested in the stock of any company, association or corporation.

SECTION 14. The State shall not be a party to, nor be interested in any work of internal improvement, nor engaged in carrying on any such work except in the improvement of, or aiding in the improvement of public wagon roads, in the re-forestration and protection of lands owned by the State and in the expenditure of grants to the State of lands or other property.

SECTION 20. The State shall borrow not to exceed $30,000,000, pledge its faith and credit, and issue its notes or bonds therefor, for the purpose of paying to each person who entered into the military, naval or marine forces of the United States between Nov. 11 1918 and April 6 1927, and served honestly and faithfully therein during the late world war, and who was a resident in this State at the time of entering such service, the sum of $15 for each month or major fraction thereof, of such service, up to and including Aug. 1 1919.

Cities and Villages.—Cities and villages are left by the 1908 instrument to the discretion of the Legislature in the matter of restrictions upon their borrowing power. The provision which relates to this subject is found in Article 8, Section 20, and is as follows:

SECTION 20 The Legislature shall provide by a general law for the incorporation of cities and by a general law for the incorporation of villages, such general laws shall limit their rate of taxation for municipal purposes and restrict their powers of borrowing money and contracting debts.

Section 24 of the same article permits the issuance of bonds for public utility purposes in excess of any limit that the Legislature may place on municipal indebtedness, with the following proviso: *Provided*, That such mortgage bonds issued beyond the general limit of bonded indebtedness prescribed by law shall not impose any liability upon such city or village, but shall be secured only upon the property and revenues of such public utility, including a franchise stating the terms upon which, in case of foreclosure, the purchaser may operate the same, which franchise shall in no case extend for a longer period than twenty years from the date of the sale of such utility and franchise on foreclosure.

Pursuant to Sec. 20, laws providing for the incorporation of cities and villages were passed by the Legislature in 1909.

By Subdivision (i) of Section 26 of Act No. 278 of the Public Acts of 1909 villages are prohibited from incurring debt in excess of 10% of the assessed valuation as shown by the last preceding assessment roll, except that in the case of fire, flood or other calamity, requiring an emergency fund, or for the repair or rebuilding of any of its municipal buildings, works, bridges or streets, a village may borrow an additional amount not exceeding ¼ of 1% of the assessed value; but such debt not to run for more than three years. Moneys on hand in a sinking fund limited to the payment of indebtedness may be deducted in figuring the borrowing capacity. Mortgage bonds to acquire or operate any public utility may be issued beyond the limit of general indebtedness, but such bonds, it is provided, shall be secured only upon the property and revenue of such utility, including a franchise, stating the terms upon which, in case of foreclosure the purchaser may operate the same, which franchise shall in no case extend for a longer period than 20 years from the date of the sale of such utility and franchise on foreclosure. The rate of tax which villages may levy for municipal purposes is limited by subdivision (*j*) of Sec. 26 to 2% of the assessed valuation. Subdivision (*k*) says that no village shall have power to issue any bonds without creating a sinking fund for their payment, except special assessment bonds, which are a charge upon a special district created for the payment thereof, and serial bonds payable annually.

The borrowing powers of cities are regulated by subdivision (*b*) of Sec. 4 of Act No. 279 of the Public Acts of 1909, as amended by Act 203, Public Acts of 1911, Act No. 5, Public Acts of 1913, by Act No. 232, Public Acts of 1917, by Act No. 348, Public Acts of 1921, and by Act No. 5, Public Acts of 1921, second extra session, known as the "Home Rule" Act (V. 96, p. 1107, and 1507; also V. 98, p. 405). Subdivision (b), as last amended, provides that each city may in its charter provide for borrowing money, for all purposes, in a sum not to exceed 10% of the assessed value, except that in cities where the amount which may be borrowed is now limited by law, such limit shall continue until raised or lowered by a 3-5 vote of the electors voting on the question at a general or special election; and in such cities bonds issued for public improvements in connection with which a special assessment district is made to pay therefor, and which are a charge upon such district, shall not be included unless the contrary is provided by the charter, and the resources of the sinking fund shall be deducted in determining the amount of such indebtedness. Debt for water works purposes may be created up to 8% of the assessed valuation, for electric light and power plants, 3%, and for other public utilities, 2%; but the total of all indebtedness is not to exceed 10% as stated above. It is provided that in cities having a population of 100,000 or over, a debt of no more than 2% of the assessed valuation may be created for any one public utility. When a city is authorized to acquire or operate any public utility, it may, for the purpose of acquiring the same, issue mortgage bonds therefor beyond the general limit of bonded indebtedness prescribed by law; Provided That, such mortgage bonds issued beyond the general limits of bonded indebtedness prescribed by law shall not impose any liability upon such city, but shall be secured only upon the property and revenues of such public utility, including a franchise stating the terms upon which, in case of foreclosure, the purchaser may operate the same, which franchise shall in no case extend for a longer period than 20 years from the date of the sale of such utility and franchise on foreclosure. And provided, further, That the charter shall provide for the creation of a sinking fund by setting aside such percentage of the gross or net earnings of the public utility as may be deemed sufficient for the payment of the mortgage bonds at maturity. In case of fire, flood or other calamity, the legislative body may borrow for the relief of the inhabitants of the city and for the preservation of municipal property, a sum not to exceed ¼ of 1% of the assessed value, due in not more than three years, even if such loan would cause the indebtedness of the city to exceed the limit fixed in the charter. Any city of 50,000 or more, owning and operating a water works system which, by its charter, is permitted to refund moneys advanced, or paid on special assessments imposed for water main extensions, may borrow for such refunding from time to time as buildings shall be connected with the water main extensions, such bonds to mature within 30 years. No city shall have the power to incur indebtedness or issue bonds of any kind except for emergency purposes as above stated, and bonds secured only by mortgage on the property and franchise of a public utility which shall exceed in the aggregate 10% of the assessed value of all the real and personal property in the city. It is also provided that cities now incorporated as fourth-class cities may, while so incorporated, incur indebtedness up to the limits contained in the Act of incorporation.

Subdivision (a) of Section 4 allows cities to levy an annual tax not exceeding 2% of the assessed value.

Counties.—The 1908 constitution provides that counties shall not incur any indebtedness which shall increase their total debt beyond 3% of their assessed valuation. At the general election in Nov. 1910, however, the voters adopted a constitutional amendment to allow counties having an assessed valuation of $5,000,000 or less to create debt up to 5% of this value. The vote was 131,147 to 128,729

Drainage Districts.—In April 1917 the voters adopted an amendment to the constitution by adding a new section (Section 15a) to Article VIII., which provides that "any drainage district established under provision of law may issue bonds for drainage purposes within such district."

NEW MUNICIPAL BOND LAW PASSED BY 1925 LEGISLATURE.—The 1925 Legislature passed a new municipal bond law designed to curb extravagant methods of financing on the part of municipalities. It limits interest rate on bonds issued under the Act to 6%, and prohibits sale of bonds below par and accrued interest. No bonds, except for subways or rapid transit or sewer disposal system for cities, shall be issued for a longer time than 30 years, nor for a longer time than the estimated period of usefulness of the property or the improvement for which bonds are issued. Funding or refunding bonds authorized by Section 6 may be issued without the vote of the electors. Section 7 requires advertised sale of bonds of over $10,000 in a local paper, or if there be none, in a paper of general circulation in the issuing municipality, and over $25,000 in a paper published or circulated in Michigan, which carries as a part of its regular service notices of sales of municipal bonds. Section 7 also provides that if no bids satisfactory to the governing body are received at the regular advertised sale the bonds may be sold at a private sale, and if not sold then within 30 days, must again be offered at public sale. Under Section 8 every officer having charge of the financial records of each municipality within 60 days after the Act takes effect and during July of each year thereafter is required to file with the State Treasurer a sworn statement giving complete descriptions of all bonds, notes or other obligations outstanding, the assessed valuation, the condition of all sinking funds, and such other information as the State Treasurer may require. The section also requires the State Treasurer to keep a record of all bonds issued and redeemed by each municipality and of the condition of their sinking funds, and prepare an annual statement showing the amounts and maturities of bonds outstanding, and amount of money and detailed description of all securities in the sinking fund for their payment. Section 9 provides that after July 1 1926 before any municipality shall issue any bonds the officer having charge of its records shall transmit to the State Treasurer a sworn statement showing the dates of issuance, purposes, amounts of maturities of all bonds or other indebtedness outstanding, the assessed of valuation of taxable property in the municipality, the condition of the sinking fu

DETROIT

and such other information as the State Treasurer may require. If the State Treasurer, upon the investigation of such statement, finds the proposed bonds to be valid, he will then issue a certificate to that effect to the officer of the municipality from whom the statement was received. No bonds may be issued until such certificate has been made. The following is the full text of the law:

HOUSE ENROLLED ACT NO. 138.

(Ordered to be known as the "Evans-Baxter Bill.")

AN ACT to regulate the issue of bonds, or other obligations, by municipalities in this State, to provide the method of payment of such bonds, or other obligations, and to prescribe the duties of municipal officers and of the State Treasurer in connection therewith.

The People of the State of Michigan enact:

Section 1. The following definitions shall apply to the terms used in this Act:

(a) "Municipality" shall mean any county, township, city, village or school district in the State of Michigan.

(b) "Governing body" shall mean the board of supervisors of a county, the township board of a township, the council or commission of a city, the council, commission or board of trustees of a village, the board of education or district board of a school district.

Section 2. No municipality shall hereafter issue any bonds, or other negotiable obligations, for the payment of current expenses, or to fund deficiences in current revenue except in anticipation of taxes actually levied and uncollected or for which an appropriation has been made, but any bond issue may be made to include interest accruing before the date of the first collection of taxes or assessments from which such interest is payable. No bonds, or other negotiable obligations, shall be made payable on demand. No bonds shall bear a higher rate of interest than six per cent per annum or be sold at less than par and accrued interest: Provided, however, That all provisions of law now in force requiring an affirmative vote of the electors to authorize the issuance of bonds by municipalities or permitting the issuance of bonds by the governing bodies of municipalities, without authorization by the electors, shall not in any manner be affected by the provisions of this Act, except in the case of funding and refunding bonds as provided for in section six hereof.

Section 3. No municipality shall hereafter issue any bonds except in accordance with the provisions of this Act. If serial bonds are issued the first installments of principal shall fall due not more than three years after the date of issue, and no installment of principal shall be less than one-third the amount of the largest installment, except that serial annuity bonds may be sold wherein the sum of the principal installment and the annual interest shall be approximately equal in each year of the life of the bond.

Any municipality may issue bonds not maturing serially on condition that provision is made for their payment by an annual tax that shall be paid into a sinking fund in approximately equal annual amounts, which with the increment thereof will equal the face of the bonds at maturity: Provided, That in the case of a school district where maturing issues of school or municipal bonds make a heavy burden which renders it undesirable to begin retirement of serial bonds or the creation of a sinking fund according to the provisions of this Act, the State Treasurer on appeal may, and is hereby authorized to, permit such district in future bond issues to postpone the retirement of the first serial bonds or the creation of the sinking fund for a period not to exceed eight years, after which date the provisions of this Act shall apply.

Secton 4. No bonds, except for subways or rapid transit or sewage disposal systems for cities, shall be issued for a longer time than thirty years, nor for a longer time than the estimated period of usefulness of the property or improvement for which the bonds are issued. The estimated period of usefulness shall be determined by a majority vote of the governing body of the municipality, and such determination shall be conclusive in any action or proceeding involving the validity of the bonds. Bonds for the purposes hereinafter specified shall not be issued for a longer time than the following, to-wit:

1. Bonds issued in anticipation of special assessments, two years from the time fixed by law for the payment of the several installments of the assessments from which the bonds are payable.

2. Bonds for payment of judgments against the municipality and emergency bonds for relief from fire, flood or other calamity, five years.

3. Bonds for the purchase of personal property other than material for permanent construction, machinery for public utilities or original furnishing and equipment of new buildings, ten years.

4. Bonds for construction, opening, widening or improvement of highways, streets or alleys, fifteen years.

Section 5. Whenever any money shall be borrowed by any municipality it shall be the duty of every officer or official body charged with any duty in connection with the determination of the amount of taxes to be raised or with the levying of such taxes, to include in the amount of taxes levied each year an amount sufficient to pay the annual interest on all such loans, any installments of the principal thereof falling due before the time of the following tax collection and all payments required to be made to sinking funds. In any municipality having any debt now outstanding and unpaid, a tax shall in like manner be levied each year, sufficient to pay the interest on such debt falling due before the time of the following tax collection, to pay any principal installment of serial bonds falling due before the time of the following tax collection and to deposit into a sinking fund annually an amount which with the increment thereof will be sufficient to pay the principal of such debt at maturity or within the term of refunding bonds hereby authorized to be issued. All sinking funds shall be kept separate from all other moneys of the municipality, and shall be used to pay or purchase the bonds of the municipality. Until such bonds are paid or purchased, the moneys belonging to such funds may be invested in bonds, or other obligations of the United States, the State of Michigan, or of any municipal corporation or political subdivision of the State of Michigan. Any officer who wilfully fails to perform the duties required of him by this section shall be personally liable to the municipality or to any bond holder for any loss or damage arising from such failure. No limitation in any statute or charter shall prevent the levy and collection of the full amount of taxes required by this section for the payment of debts, but nothing herein shall authorize the levy of a tax for any other purpose exceeding the existing tax limitation.

Section 6. Any municipality having bonds now outstanding may extend the time of payment thereof by the issue of refunding bonds, which shall be payable as herein provided. The maturity of such refunding bonds shall be so fixed that the entire time elapsing from the issue of the original bonds to the final maturity of the refunding bonds shall not exceed the time allowed by this act for the maturity of bonds used for the purpose of the original issue: Provided, That refunding bonds may be issued to mature over any period not exceeding ten years from the date this act takes effect, even though such maturity may exceed the limit hereinbefore fixed. Any municipality which has used the principal of any sinking fund or other trust fund for any purpose other than that for which it was created, and has not restored the same, may, at any time within two years after this Act becomes effective, borrow money and issue funding bonds therefor for the purpose of restoring such sinking fund or other trust fund. Such funding bonds shall mature as herein provided, over a period not exceeding ten years. Funding or refunding bonds authorized by this section may be issued by the governing body without a vote of the electors.

Section 7. No bonds of any authorized issue of more than twenty-five thousand dollars shall be sold except at public sale, after notice by publication at least seven days before the sale, in a paper published or circulated in the State of Michigan which carries, as a part of its regular service, notices of the sale of municipal bonds. No bonds of any authorized issue of more than ten thousand dollars shall be sold except after like notice in such paper or in a newspaper published in the municipality, or if there be none, in a newspaper of general circulation in the municipality. The determination of the governing body of the qualifications of papers for such publication shall be conclusive. If no bids satisfactory to the governing body are received, the bonds may be sold at private sale, but no such private sale shall be made at a price less than the highest price which shall have been received, and if not so sold within thirty days, must be again offered at public sale as hereinbefore provided.

Section 8. It shall be the duty of the officer having charge of the nancial records of every municipality in the State, within sixty days after his Act takes effect, and during the month of July of each year thereafter, to file with the State Treasurer a sworn statement showing the dates of issuance, purposes, amounts and maturities of all bonds, notes, or other obligations outstanding, the assessed valuation of all taxable property in the municipality, the condition of all sinking funds and such other information as the State Treasurer may require. The State Treasurer shall keep a record of all bonds issued or redeemed by each municipality and of the conditions of their sinking funds and shall make an annual statement showing the amounts and maturities of bonds outstanding against each municipality and the amount of money and detailed description of all securities in the sinking funds for their payment.

Section 9. Before any municipality shall issue any bonds, after July 1st 1926, the officer having charge of its financial records shall transmit to the State Treasurer a sworn statement showing the dates of issuance, purposes, amounts and maturities of all bonds or other indebtedness outstanding, the assessed valuation of all taxable property in the municipality, the condition of all sinking funds, and such other information as the State Treasurer may require. The State Treasurer shall examine the same, and if he finds that the issuance of the proposed bonds will not be in violation of any of the provisions of this Act and that they will not cause the debt of the municipality to exceed any constitutional, statutory or charter limitation, and that the amounts in all sinking funds comply with the provisions of this Act, he shall make a certificate to that effect and forward the same to the officer of the municipality from whom the statement was received. No bonds may be issued until such certificate has been made. The State Treasurer is hereby authorized to employ the necessary assistance to perform the duties hereby assigned to him.

Section 10. This Act shall be immediately printed and a copy mailed by the Secretary of State to the clerk, secretary or other recording officer of every municipality in the State.

Section 11. Should the court declare any section or clause of this Act invalid for any reason, then such decision shall affect only the section or clause so declared to be invalid and shall not affect any other section or clause of this act.

Section 12. All Acts and parts of Acts inconsistent herewith are hereby repealed.

EXEMPT FROM TAXATION.—An Act of the Legislature approved May 13 1909 provides that bonds hereafter issued by any county, township, city, village or school district in the State of Michigan shall be exempt from all taxation V 88, p. 1452

By Legislative Acts, bonds issued by the State for the payment of the Soldiers' Bonus and for road improvements are exempt from all taxation.

CONSTITUTIONAL AMENDMENT PROPOSING A STATE INCOME TAX DEFEATED.—On Nov. 4 1924 the voters of this State defeated by a vote of 216,437 for to 913,833 against a proposed amendment to Article 10 of State Constitution, which would have authorized the enactment of an income tax law. At the 1925 session of the Legislature an income tax was again proposed, but the legislation proposing a new amendment was turned down.

TAX ON SECURED DEBTS.—The 1913 Legislature passed an Act (No. 142) providing that by the payment of a specific tax of ½%, "secured debts" may be exempted from the payment of further general taxes. In 1915 this law was amended so as to exempt municipal bonds issued by places outside the State upon the payment of a similar tax. See "Chronicle" of May 29 1915, State & City Department. The Attorney-General has ruled that drainage and levee bonds do not come within the scope of the law referred to. See V. 101, p. 709. The law was again amended by the Legislature in 1917 providing for the exemption of any bond or other obligation issued by any foreign country upon the payment of the tax of ½%. V. 104, p. 2258.

SAVINGS BANK INVESTMENTS.—Investments by Michigan savings banks are governed by Section 27 of Act No. 205 of the Public Acts of 1887, and amendments thereto. In 1913 an amendment was approved, specifying that steamship bonds, if issued on bulk freighters operating on the Great Lakes and connecting waters, must be on steamships of at least 7,000 tons carrying capacity; and providing that securities against which participation certificates are issued must be deposited in a Michigan trust company rather than a Michigan collateral deposit company. The law was again amended in 1919 so as to provide that savings banks may, in addition to the public debt or bonds of any city, county, township, village, school district of any State or territory in the United States, invest in legally authorized bonds of any road district in Michigan organized, constituted and existing by virtue of provisions of Act 59 of the Public Acts of 1915, and amendments thereto, and in accepted draft or bills of exchange; the law as amended in 1919 also provides that the amount which may be loaned upon notes or bonds secured by mortgage lien in the instance of improved farm property is increased from 50% to 60% of the value of such property. An amendment to subdivision (g) of this section was made in 1923 and adds to the list of first mortgage bonds legal under the provisions of said subdividion, of other companies, those of any telephone company organized under the laws of Michigan. In 1925 a new subdivision was added (g-1) permitting investments in bonds, issued by joint stock land banks. We publish Section 27 as it now reads:

Sec. 27. A savings bank shall keep at least 12% of its total deposits on hand, or with national or State banks or trust companies, payable on demand, in cities approved by the Commissioner of the Banking Department as reserve cities, or invested in United States bonds; three-fifths of the remainder of the savings deposits shall be invested by the Board of Directors as follows:

(a) In bonds of the United States, of any State or Territory of the United States: Provided, That such State or Territory has not, in the ten years preceding the time of such investment, repudiated its debt and failed to pay the same, or the interest due thereon, or upon any part of such debt; or

(b) In the public debt or bonds of any city, county, township, village or school district of any State or Territory in the United States, which shall have been authorized by the Legislature of such State or Territory: *Provided*, That the total indebtedness of such municipality does not exceed 5% of its assessed valuation; except by a vote of two-thirds of the Board of Directors, such bonds may be purchased if the total liabilities do not exceed 10% of its assessed valuation; or

(c) In the legally authorized bonds of any road district in Michigan organized, constituted, and existing by virtue of the provisions of Act No. 59 of the Public Acts of 1915, and amendments thereto; or

(*d*) In the legally authorized first mortgage bonds of any steam railroad corporation organized under the laws of any State of the United States; Provided, That such company has for five years prior to the time of making such investment by such bank, paid annually, dividends equal to not less than 4% on its entire capital stock and has not during said period defaulted in the payment of the matured principal or interest of any debts incurred by it and secured by mortgage or trust deed upon its property or any part thereof, or in the payment of any part of the matured principal or interest of any bonds guaranteed and assumed by it; or

(*e*) In the first mortgage bonds of railroad companies whose lines are leased or operated or controlled by any railroad company specified in paragraph (*d*) of this section, if said bonds be guaranteed both as to principal and interest by the railroad company to which said lines are leased or by which they are operated or controlled;

(*f*) In the legally authorized mortgage bonds of any steam railroad corporation organized under the laws of any State of the United States, which shall have been issued for the purpose of retiring all prior mortgage indebtedness on so much of the property of such company as is covered by the mortgage securing such issue of bonds, and further providing for additions, extensions or improvements; Provided, That such company has for three years prior to the time of making such investment by said bank paid annually dividends equal to not less than 4% on its entire capital stock, which capital stock shall equal or exceed in amount one-third of the par value of all its bonded indebtedness, and has not, during the same period, defaulted in the payment of the matured principal or interest of any debts incurred by it and secured by mortgage or trust deed upon its property or any part thereof, or in the payment of any part of the matured principal or interest upon a bond guaranteed or assumed by it; Provided, Said issues of bonds shall have been approved by the Securities Commission hereinafter provided for;

(*g*) In the legally authorized first mortgage bonds of any electric railroad, street railway, telephone, gas or electric light or power company, organized under the laws of the State of Michigan: Provided, That such company has, for the five years prior to the time of making such investment by said bank, paid annually dividends equal to not less than 4% on its entire capital stock, and has not during the same period defaulted in the payment of the matured principal or interest for any debts incurred by it and secured by mortgage or trust deed upon its property or any part thereof; or in the payment of any part of the matured principal or interest of any bonds guaranteed or assumed by it; or in the first mortgage bonds of any such company which has been in operation less than five years: Provided: That the cost of construction and equipment of the plant of such company shall exceed by at least 50% the amount of the entire bonded indebtedness of such company, and the said plant and equipment shall be free from all other liens and encumbrances, and the said company shall have earned during the period it has been in operation, more than enough to pay all interest accrued on all said bonds and not less than 4% per annum dividends upon its entire capital stock outstanding; Provided, Said issues of bonds shall have been approved by the Securities Commission hereinafter provided for;

(*g*-1) In bonds issued by the joint stock land banks, authorized under Section 16 of the Act of Congress, approved July 17 1916, known as the Federal Farm Loan Act, as amended.

(*h*) In the legally authorized first mortgage bonds of steamship companies: Provided, That such mortgages shall be upon steel steamship or steamships for the carriage upon the Great Lakes and connecting waters of package freight and passengers combined of at least five thousand tons carrying capacity each, and upon bulk freighters of at least seven thousand tons carrying capacity each: Provided, That such bonds are issued at the time of completion and enrollment of such steamship or steamships, or within one year thereafter: And provided further, That by the express terms of said mortgage, at least 10% of the total issue of said bonds shall be retired annually, beginning within two years from the date of said bonds, and that the mortgage liability against said property shall not exceed one-half of its actual cost: And provided further, That the trustees of such mortgage shall be required to protect the lien of said mortgage by attending to the recording thereof and by causing property covered by said mortgage to be insured against all risks on vessel property ordinarily covered by such insurance, including marine risks and disasters, general and particular average, collision liability, protection and indemnity insurance and insurance against liability for injuries to persons, in insurance companies and under forms of policies approved by the trustee, for an amount equal to the full insurable value of such steamship, such insurance to be made with loss payable to said trustee and the policies deposited with it: And provided further, That there shall be filed with the Commissioner of the Banking Department of this State a schedule of the insurance upon such property, which schedule shall be signed by the trustee under said mortgage and shall be accompanied by the certificate of said trustee that the policies mentioned in said schedule are held by said trustee, and are payable to said trustee in case of loss for the benefit of the holders of the outstanding bonds issued under such mortgage; and provided further, That similar certificates be filed from time to time by said trustee with said Commissioner of the Banking Department of this State, evidencing renewals of said insurance by proper policies or legal insurance binders: Provided further, That by the terms of such mortgage, the mortgagor shall not suffer such steamship to become indebted in an amount exceeding 5% of the original amount of the principal of said mortgage at any time and that the failure of the mortgagor to forthwith procure the release of such steamship or steamships from mechanics', laborers', admiralty, statutory, or other liens, claims or charges against such steamship, shall constitute a default in the provisions of such mortgage; And provided further, That such bonds shall have been approved by the Securities Commission hereinafter provided for;

(*i*) Said banks may loan the same upon negotiable paper or other evidence of indebtedness, secured by any of the above mentioned classes of securities; or

(*j*) Upon notes or bonds secured by mortgage lien upon unencumbered real estate worth at least double the amount loaned except on improved farm property the amount loaned upon such notes or bonds secured by first mortgage lien shall not exceed sixty per cent of value of such property; or

(*k*) In accepted drafts or bills of exchange having not more than six months to run growing out of transactions involving the importation or exportation of goods; or growing out of transactions involving the domestic shipment of goods providing shipping documents conveying or securing title are attached at the time of acceptance; or which are secured at the time of acceptance by official warehouse receipt or other document conveying or securing title covering readily marketable staples. For the purposes of this section the acceptance of any one person, company, firm or corporation shall not exceed at any time more than twenty per cent of its paid-up capital and unimpaired surplus. The aggregate of such accepted drafts or bills of exchange shall not exceed at any one time the amount of capital stock and unimpaired surplus of the bank.

(*l*) The remainder of such deposits may be invested in notes, bills, or other evidences of debt, the payment of which is secured by the deposit with the bank of collateral security consisting of personal property or securities of known marketable value worth ten per cent more than the amount so loaned and interest for the time of the loan; or may be invested in notes, bills or other evidences of debt, the payment of which is secured by such property or securities deposited in a trust company organized under the laws of this State; or may be deposited in any national bank, trust company, or bank in cities of this or any other State, approved by the Commissioner of the Banking Department as reserve cities, and a portion of said remainder, not exceeding the capital and additional stockholders' liability, may be invested in negotiable paper approved by the Board of Directors, but the deposits in any one bank shall not exceed ten per cent of the total deposits, capital and surplus of the depositing bank. In case the actual reserve shall fall below the twelve per cent above provided, the bank shall promptly and in good faith take measures to restore and maintain its lawful reserve, in default of which the Commissioner of the Banking Department shall require such restoration within thirty days after notice, and a failure to comply with such demands shall warrant proceedings to wind up the bank as provided in Section 6 of this Act.

DETROIT.
Detroit is situated in Wayne Co Incorp. in 1806. Woodmere (population 4,474) annexed April 1 1906 Village of Delray annexed Apr. 1 1906. Village of Fairview annexed Oct. 24 1907 and Village of St. Clair Height annexed October 1 1918. During the latter part of last year the village of Oakwood was annexed to Detroit. The question of annexation of Highland Park was defeated Nov. 8 1910. V. 91, p. 1342. The annexation of a portion of Grosse Point and Gratiot townships was voted April 2 1917. In a decision rendered Feb. 16 1912 the State Supreme Court held that the Board of Education and the Library Commission are corporations separate from the city and therefore their bond issues should not be included in the 2% limit of indebtedness for municipal purposes specified in the city charter. V. 94, p. 575.
Chapter XIII of Title IV of the new charter (adopted by the people of Detroit on June 25 1918) provides for municipal ownership and operation of a street railway stystem. This chapter creates a commission to be known as the Board of Street Railway Commissioners, consisting of three members who shall be appointed by the Mayor. Section 9 of this Chapter authorizes the Common Council on the request of the Board to issue bonds in such amounts as will not exceed the legal bonding limit of the city to be known as public utility bonds up to the amount of 2% of the assessed value of real and personal property of the city. The new charter, by Sec. 2 of Chapter V of Title VI, provides that the gross debt exclusive of the water debt, after deducting the means in the general sinking fund shall not exceed 4% of the assessed value of all the real and personal property of the city unless authorized by a vote of three-fifths of the electors. An amendment to the charter, however, adopted on Apr. 7 1919, provides that such public utility bonds shall be "in addition to any other bonds which the city is or may be authorized to issue for any other purpose whatsoever."
The voters of Detroit on April 7 1919 defeated by a vote of 70,271 to 63,883 the Mayor's proposal to purchase the Detroit United Rys. for $31,500,000. V. 108, p. 1511.
On April 17 1922, however, the voters approved, by 55,474 to 12,186, a plan to purchase the Detroit United Rys. for $19,850,000. V. 114, p. 979, 1178, 1764. Of this purchase price ($19,850,000) $4,770,000 was paid on June 2 1924 (V. 119, p. 222).
On Oct. 9 1923 the annexation of portions of Redford, Greenfield and Gratiot townships was approved by the voters; see V. 117, p. 1798, 1909. A portion of Hamtramck and an additional portion of Gratiot townships were annexed to Detroit as a result of a special election held on April 7 1924. V. 118, p. 1945. On Sept. 9 1924 the voters approved the annexation of the whole of Hamtramck Twp. and an additional portion of Gratiot Twp. V. 119, p. 1422. A charter amendment increasing from 7% to 9% of assessed valuation the limitation upon bonded indebtedness the city may incur was approved by the voters on Nov. 6 1923. V. 117, p. 2131. At the same time an amendment allowing the city to incur an indebtedness of an additional 4% of the assessed valuation of property for the construction of subways was passed. This indebtedness would be over and above any other limit upon city indebtedness. For further details of this amendment see above references.

United States Debt and the Congressional Acts Authorizing It.

In 1917 the United States, after a long period of debt retirement, entered upon a new era in its debt history. In the prosecution of the war against the Imperial German Government, new obligations were issued on a scale of unparalleled magnitude. By the Act of April 4 1917 authority was conferred upon the Secretary of the Treasury to issue $5,000,000,000 long-term non-taxable bonds at not to exceed 3½% interest ($3,000,000,000 of this being for the purpose of establishing credits in the United States for the foreign Governments enlisted in the war against Germany), and $2,000,000,000 certificates of indebtedness, the latter running for periods not exceeding one year. By the further Act of Sept. 24 1917, authority was conferred to issue $7,538,945,460 convertible 4% bonds to take up ultimately the $3,000,000,000 3½% issue authorized to cover loans to the Allies, and to provide for new Allied credits of $4,000,000,000, the remaining $538,945,460 to be used for converting certain outstanding bonds, including the Danish West Indies, Alaskan Railway, Panama Canal and naval construction issues. The bill also provided for the issuance of $2,000,000,000 *each* of one-year Treasury certificates of indebtness and five-year war savings certificates. The interest rate on the certificates the Secretary of the Treasury was left to fix. By the further Act of April 4 1918, amending the Act of Sept. 24 1917, authority was conferred to issue $12,000,000,000 of bonds at not exceeding 4¼% interest, the 12 billion dollars, however, to include the bonds issued under the Second Liberty Loan, and $3,638,945,460 being in lieu of corresponding amounts of unissued bonds authorized by previous Acts. Under the same Act the limit upon the amount of certificates of indebtedness that might be outstanding at any one time was raised from $4,000,000,000 to $8,000,000,000, and it was further raised to $10,000,000,000 under the Act of March 3 1919. By the further Act of July 9 1918, amending previous Liberty bond enactments, the limit of the bond issue was raised to $20,000,000,000 at not exceeding 4¼%, but including bonds theretofore issued, and increasing from $5,500,000,000 to $7,000,000,000 the additional loans or credits that might be extended to the Allies, making $10,000,000,000 altogether that could be loaned to the Allies. By the further Act of March 3 1919 (Victory Liberty Loan Act) amending previous Liberty Loan Acts and the War Finance Corporation Act, the Secretary of the Treasury was authorized to borrow an aggregate not exceeding $7,000,000,000 at such rate or rates of interest as he might prescribe, issuing therefor notes payable in not less than one year nor more than five years. By the Liberty Bond Exemption Bill of Sept. 24 1918, the total of War Savings Certificates that might be issued was raised from $2,000,000,000 to $4,000,000,000.

The indebtedness of the Government mounted rapidly as bonds authorized by these enactments were issued, the total indebtedness rising from a pre-war figure of about one billion to $26,596,701,648.01, the peak reached Aug. 31 1919. Since that date there has been in progress a gradual reduction in the debt. As of May 31 1926, the gross indebtedness amounted to $20,063,300,261.28, a decrease of $6,533,401,386.73 since Aug. 31 1919.

The following is a brief review of the more important financing done by the Government since the beginning of the war with Germany:

In June 1917 $2,000,000,000 of 3½% bonds were offered under the Act of April 24 1917. The subscriptions amounted to $3,036,226,850, but only $1,989,455,550 were issued. In October 1917 an offering of $3,000,000,000 4s under the Act of Sept. 24 1917 was made. Subscriptions reached an aggregate of $4,617,532,300. In accordance with previous announcement, one-half of the over-subscription was accepted, making the total of bonds put out under this offer $3,807,865,000. In April 1918 $3,000,000,000 of 4¼% non-convertible bonds (Third Liberty Loan) were offered under the Act of April 4 1918. The subscriptions amounted to $4,175,650,050, all of which were accepted. In Sept.-Oct. 1918 $6,000,000,000 of 4¼% non-convertible bonds (Fourth Liberty Loan) were offered under the Act of July 9 1918. The subscriptions amounted to $6,964,581,100, all of which were accepted. In April-May 1919, $4,500,000,000 of convertible gold notes were issued in two series, the one bearing interest at 3¾%, the other at 4¼%. The subscriptions amounted to $5,249,908,300, but only $4,495,373,000 was accepted. Secretary of the Treasury Mellon on Feb. 8 1922 called for redemption on June 15 1922 all of the Victory Notes of the 3¾% series, and on July 26 1922 he called for redemption on Dec. 15 1922, Series A to F, of the 4¾% Victory Notes, aggregating about $702,938,100. The remaining Victory Loan Notes matured on May 20 1923, and were then paid off. In October 1922 an offering of $500,000,000 4¼% 30-year (optional after 25 years) Treasury Bonds, issued under authority of the Act of Sept. 24 1917, as amended, was made for refunding purposes. Subscriptions amounted to no less than $1,651,912,800, of which $763,962,300 were accepted. On Dec. 3 1924 another offering of long-term bonds was made under authority of the Act of Sept. 24 1917 as amended, consisting of 4% 30-year (optional after 20 years) Treasury bonds to amount of $200,000,000 or thereabouts, for subscriptions in cash and additional bonds to the extent that 4¾% Treasury notes or 4% Treasury certificates of indebtedness maturing March 15 1925, and Third Liberty Loan 4¼% bonds might be tendered in payment. While the cash subscriptions were closed Dec. 4, books for the exchange subscriptions did not close until Dec. 20. Cash subscriptions amounted to $1,460,530,550, of which $224,513,500 were allotted. Exchange subscriptions, which were allotted in full, amounted to $532,230,000. On March 5 1925 a further offering was made. The financing on that date took the form of a combined offering of $450,000,000 or thereabouts of 4% Treasury bonds and of 3% Treasury certificates. The bonds were of the same series as those offered on Dec. 3 1924 Subscriptions for the bonds totaled $382,326,400, of which $290,154,700 were allotted. Allotments on the certificates may be found under the caption "Certificates of Indebtedness" below. In March 1926 another long term issue of bonds was floated by the Treasury Department. The offering was for $500,000,000 or thereabouts for which could be tendered in part payment Treasury notes, series A 1926, maturing March 15 1926. Total subscriptions for the issue amounted to $647,243,900, of which $494,898,100 were accepted. The bonds bear only 3¾% interest, the lowest rate borne by long term bonds since the issuance of the First Liberty Loan 3½% bonds in June 1917. Treasury Notes running from three to four years and Certificates of Indebtedness running for six months and a year, have also been issued from time to time. Reference to these will be found under a separate heading. Treasury savings certificates were entirely withdrawn from sale at the close of business July 15 1924 after their sale had been suspended earlier in the year in many West and Middle Western States to permit use of the funds to aid in agricultural relief. On Jan. 1 1925 the United States Treasury redeemed as per announcement the War Savings Certificates (stamps) and Treasury Savings Certificates, Series of 1920, maturing on that date. On Jan. 1 1926 the War Savings Certificates (stamps) and Treasury Savings Certificates, series of 1921, were also paid off.

It was made known on Dec. 14 1925 that the Treasury Department's offer, made on Nov. 26 1925, to buy in about $50,000,000 of Third Liberty Loan 4¼% bonds for the account of the cumulative sinking fund at prices not to exceed 101½ had met with offerings for sale of $176,000,000. The Treasury accepted all proposals for sale at prices not exceeding 101¼. Such proposals aggregated about $66,450,000 face amount. On March 1 1926, under the same plan as adopted in Nov. 1925, another offer to buy in about $100,000,000 more of these bonds was made. This proposal expired at the close of business on March 10. All proposals for sale at prices at not exceeding 101 10-32 were accepted, such proposals aggregating about $121,750,000 face amount. All tenders for sale at prices over the above price were rejected. (See "Chronicle" of March 6, page 1244, and also issue of March 20 1926, page 1550.)

The Treasury Department redeemed on Feb. 2 1925 the remaining $118,489,900 bonds of the old 4% loan of 1925.

Note.—The Act authorizing the First Liberty Loan was given in the "Chronicle" of April 28, page 1649, with further particulars in the issue of May 12 1917, page 1849, and the text of the Treasury circular in the issue of May 19, page 1959; and of the Second Loan the full text of the bill as it became a law in the "Chronicle" of Sept. 29 1917, page 1252, and the text of the Treasury circular in the issue of Oct. 6, page 1355. The Act authorizing the Third Liberty Loan was presented in the "Chronicle" of April 6 1918, page 1404, and the text of the Treasury circular in the issue of April 13, page 1517. The Act authorizing the Fourth Liberty Loan appeared in the "Chronicle" of July 13 1918, page 131, the Treasury circular in the

issue of Oct. 5, page 1328, and the text of the Liberty Bond Exemption Bill on Oct. 5, page 1327. The Act authorizing the Fifth (Victory) Liberty Loan was given in the "Chronicle" of March 8 1919, page 919, and the text of the Treasury Circular in the issue of April 26 1919, page 1670. Certificates of indebtedness have been issued from time to time under the Act of April 24 1917 and the amendatory Acts of Sept. 24 1917, April 4 1918 July 9 1918 and March 3 1919, always for short periods. The offering of 25-30-year long-term Treasury bonds made in October 1922 was given in the issue of Oct. 14 1922, page 1684; details of subscriptions and allotments in the issue of Nov. 18, page 2219. The offering of the 20-30-year Treasury bonds made in December, 1924, was reported in the "Chronicle" of Dec. 6 1924, page 2594; Dec. 13, page 2717; Dec. 20, page 2829, and Dec. 27, page 2959. The offering of the additional 20-30-year (opt.) Treasury bonds was reported in the "Chronicle" of March 7 1925, page 1156, and March 14 1925, page 1264. The offering of 3¼% 20-30-year Treasury bonds in March 1926 was reported in the "Chronicle" of March 13 1926, page 1401 and March 20 1926, page 1550.

In the following we present a detailed statement of the debt of the United States as made up by the Treasurer at the close of business on May 31 1926, this being based on the daily Treasury statements, and, therefore, subject to revision in a minor way.

Treasury Savings Certificates	Sept. 24 1917, as amended	4% & 4½	Five years from date of issue	At mat'y.	----------	----------	*360,447,254
Aggregate of interest-bearing debt							19,803,384,924

a Of this total $1,402,143,100 at 3½%, $5,156,850 at 4%, $532,870,200 converted at 4¼%, and $3,492,150 2d converted at 4¼%. *b* Of this total, about $20,850,700 at 4%; balance at 4¼%. * Net redemption value of certificates outstanding.

The Government debt on May 31 1926 was made up of (1) interest-bearing debt, $19,803,384,924.05; of (2) debt on which interest has ceased, $13,259,310.26; of (3) debt bearing no interest, $246,656,026.97; making total *gross debt*, $20,063,300,261.28, which, however, does not include a group of items designated in the monthly Debt Statement, as "Matured Interest Obligations, &c.," and which on April 30 1926 (this being the latest monthly Debt Statement now available), aggregated $146,635,040.99, raising the grand total of the gross debt to about $20,200,000,000. To get at the *net* debt, it is necessary to deduct the net cash balance in the Treasury; this latter amounted to $335,864,843.57 April 30 1926 (which includes $1,092,986.68—a credit item—for net excess of disbursements over receipts in April reports subsequently received), and to $263,302,285.55 on May 31 1926, without any allowance for revisions.

Consolidation of Liberty Bond Tax Exemptions.—The degree of tax exemption enjoyed by the different issues of Liberty Loan and Victory Liberty Loan bonds is given below in the remarks relating to each issue. In the Revenue Act of 1921 the various provisions appertaining to the several issues were consolidated in Section 1328 of the Act. The same provision was contained in the Revenue Act of 1924, approved by the President on June 2 1924, and constituted Section 1028 of that Act. It also forms part of the Revenue Act of 1926, approved Feb. 26 1926, constituting Sec. 1125 of such Act. The new Revenue Act, complete, was published in a special supplement to the "Financial Chronicle" of Feb. 27 1926. We give Section 1125 herewith:

SECTION 1028. That the various Acts authorizing the issues of Liberty bonds are amended and supplemented as follows:

(a) On and after January 1 1921, 4 per centum and 4¼ per centum Liberty bonds shall be exempt from graduated additional income taxes, commonly known as surtaxes, and excess profits and war profits taxes, now or hereafter imposed by the United States upon the income or profits of individuals, partnerships, corporations, or associations, in respect to the interest on aggregate principal amounts thereof as follows:

Until the expiration of two years after the date of the termination of the war between the United States and the German Government, as fixed by proclamation of the President, on $125,000 aggregate principal amount; and for three years more on $50,000 aggregate principal amount. [The official date of the termination of the war by official proclamation was July 2 1921.—Ed.]

(b) The exemptions provided in Subdivision (a) shall be in addition to the exemptions provided in Section 7 of the Second Liberty Bond Act, and in addition to the exemption provided in Subdivision (3) of Section 1 of the Supplement to the Second Liberty Bond Act in respect to bonds issued upon conversion of 3½ per centum bonds, but shall be in lieu of the exemptions provided and free from the conditions and limitations imposed in Subdivisions (1) and (2) of Section 1 of the Supplement to Second Liberty Bond Act and in Section 2 of the Victory Liberty Loan Act.

Section 1402 of the Revenue Act of 1921 increased from $1,000 to $5,000 the limit placed on the amount of holdings, of any one person, of Treasury (War) Savings Certificates.

Below we analyze the Congressional Acts authorizing the incurring of indebtedness and the issues made under each:

CERTIFICATES OF INDEBTEDNESS UNDER ACT OF SEPT. 24 1917, APR. 4 1918 APR. 23 1918, MAR 3 1919.—(Column 8.)—Sec 6 of Act of Sept. 24 1917 provides for the issuance of certificates of indebtedness at not less than par and at such rates of interest as the Secretary of the Treasury may prescribe for the purposes of the Act and to meet public expenditures authorized by law, each certificate so issued payable at such time not exceeding one year from the date of its issue, and redeemable before maturity upon such terms and conditions, and the interest accruing thereon payable at such time or times as the Secretary of the Treasury may prescribe. The sum of such certificates outstanding was not at any one time to exceed in the aggregate $4,000,000,000, but this was increased under the Act of April 4 1918 to $8,000,000,000 and further increased to $10,000,000,000 under the Act of March 3 1919. Under the authority thus granted the Secretary has issued varying amounts of these certificates from time to time, through the Federal Reserve banks, all for short periods, the rate of interest being at first fixed at 4%, then raised to 4¼%, to 4½, to 4¾, to 5, to 5¼, to 5½, to 5¾, and finally to 6%. During 1921 the rate of interest declined and at the close of the year was down to 4¼ and 4½% and in the first six months of 1922 dropped still further to 3½%. During the second half o 1922 and the first five months of 1923 the rate increased again to 4½% but an issue put out on June 11 1923 bore only 4%. After that time and up until March 1924 all the issues were either put out at 4% or 4¼%, the former rate predominating. On June 8 1924, on an offering of certificates in the amount of $150,000,000 or thereabouts, the rate was lowered to 2¾% interest—thus bringing the rate down to the interest rates prevailing before the war. The 2¾% rate was the lowest rate paid by the Government on any war or post-war financing. Subscriptions for these certificates amounted to $609,192,500, but only $193,065,500 was allotted, of which $124,608,400 represented allotments on subscriptions for which Treasury certificates maturing June 16 1924, or Treasury notes maturing June 15 1924, were tendered in payment. In September 1924 another offering was made at 2¾% interest. The offering was for $350,000,000 or thereabouts; subscriptions

amounted to $596,145,500, of which $391,369,500 were accepted, this including $125,982,000 subscriptions for which Treasury notes falling due Sept. 15 1924 were tendered. On March 5 and June 8 1925, respectively, two more offerings of Treasury certificates were made. These were at 3% interest. The offering on March 5, as announced above, took the form of a combined offering of $450,000,000 or thereabouts of 3% Treasury certificates and 4% Treasury bonds. Subscriptions for the certificates amounted to $365,230,000, of which $219,462,400 were allotted. Of the subscriptions received about $271,000,000 represented cash subscriptions; payment for the remaining $94,000,000 of subscriptions being tendered in Treasury notes and certificates of indebtedness maturing March 15 1925. The allotment made on the bonds is given above. The offering on June 8 was for $125,000,000 or thereabouts; subscriptions amounted to $470,254,000, of which $124,247,000 was accepted. Two further offerings were made by the Treasury Department during the latter part of 1925. On September 8 an offering of $250,000,000 or thereabouts bearing 3¼% interest, was made. Subscriptions for the certificates totaled $568,155,500, of which $251,936,000 were accepted. The other offering took place on December 15. It bore 3¼% interest and was for $450,000,000 or thereabouts. Subscriptions received aggregated $876,381,000 of which $452,879,000 were allotted. There were outstanding May 31 1926 $817,802,000 at various rates of interest.

LOANS TO BE REPLACED BY LIBERTY LOAN.—Under the Act of April 24 1917, authorizing the First Liberty Loan bonds, and again under the Act of Sept. 24 1917, authorizing the Second Liberty Loan, as well as under the Third Liberty Loan, all referred to below, the Secretary of the Treasury was authorized to issue Liberty Loan bonds to replace, at his discretion, bonds not already emitted under the following: Act of Aug. 5 1909, Section 39 Panama Canal Loan (Column 9), referred to above: Act of June 3 1916, Section 124, an Act for making further and more effectual provision for the national defense and other purposes, and providing for the expenditure of not more than $20,000,000 for a Government nitrate manufacturing plant: Act of Sept. 7 1916, Section 13, an Act to establish a United States Shipping Board for the purpose of encouraging, developing and creating a naval auxiliary and a naval reserve and a merchant marine to meet the requirements of the commerce of the United States with its territories and possessions and with foreign countries, to regulate carriers by water engaged in the foreign and inter-State commerce of the United States, and for other purposes; Act of March 3 1917, Section 400, "An Act to provide increased revenue to defray the expenses of the increased appropriations for the Army and Navy and the extension of fortifications, and for other purposes." See certificates of indebtedness above, and the Public Resolution of March 4 1917, entitled: "Joint resolution to expedite the delivery of materials, equipment and munitions and to secure more expeditious construction of ships."

LIBERTY LOAN OF 1917, FIRST.—(Column 1.) Authorized by Act of April 24 1917, entitled "An Act to authorize an issue of bonds to meet expenditures for the national security and defense, and for the purpose of assisting in the prosecution of the war, to extend credit to foreign governments, and for other purposes." Under the Act the Secretary was empowered to borrow, with the approval of the President, up to $5,000,000,000, exclusive of the sums authorized by Section 4 of the Act (see Loans to be Replaced by Liberty Loan above) to meet expenditures authorized for the national security and defense and other public purposes authorized by law and to issue therefor bonds of the United States. The bonds out bear 3½% interest and are payable in United States gold coin of the present standard of value, and exempt both as to principal and interest, from all taxation, except estate or inheritance taxes, imposed by authority of the United States or its possessions or by any State or local taxing authority. The bonds do not bear the circulation privilege. Provision was made by Section 2 of the Act for the establishing of credits to and the purchasing of obligations of foreign governments, $3,000,000,000, or so much thereof as might be necessary being appropriated for the purpose. Under Section 3 it was provided that payments to the United States on or before maturity by foreign governments for obligations incurred by them under Section 2 must be applied to the redemption or purchase at not more than par and accrued interest of any bonds of the United States issued under authority of the Act; and if such bonds are not available for this purpose the Secretary of the Treasury shall redeem or purchase any other outstanding interest-bearing obligations of the United States which may at such time be subject to call or which may be purchased at not more than par and accrued interest.

Section 5 provides that any series of bonds issued under authority of the Act may be convertible into bonds bearing a higher rate of interest than the rate at which the same were issued if any subsequent series of bonds shall be issued at a higher rate of interest before the termination of the war, the date of such termination to be fixed by a proclamation of the President of the United States.

Under the Act $2,000,000,000 gold bonds, running 15-30 years and bearing 3½ interest payable semi-annually June 15 and Dec. 15 were offered for subscription, denominations of coupon bonds being $50, $100, $500 and $1,000, and registered bonds $100, $500, $1,000, $5,000, $10,000, $50,000 and $100,000. Subscriptions were received from over 4,000,000 individual subscribers and aggregated $3,036,226,850. In scaling down the allotments to the total offered, all subscriptions up to and including $10,000 were awarded in full, but on larger amounts the allotments ranged from 60% down to 20.17%. The total of bonds issued was $1,980,455,550, but only $1,402,143,100 remained outstanding May 31 1926 as 3½s with full tax exemption; in addition, $5,156,850 appear as First Liberty Loan Convertible 4s; $532,870,200 as converted 4¼s and $3,492,150 Second Converted 4¼s. The total of the First Liberty Loan issues outstanding, converted and unconverted, May 31 1926 was $1,943,662,300.

LIBERTY LOAN OF 1917, SECOND.—(Column 2.) —Authorized by Act of Sept. 24 1917, entitled "An Act to authorize an additional issue of bonds to meet expenditures for the national security and defense, and for the purpose of assisting in the prosecution of the war, to extend additional credit to foreign governments, and for other purposes."

The Act in its general outlines is similar to that of April 24 1917, but authorizes the issuance of not exceeding $7,538,945,460 bonds, bearing not exceeding 4% interest, in addition to the $2,000,000,000 bonds issued under authority of the Act of April 24 1917. *Provided*, That of this sum $3,063,945,460 shall be in lieu of that amount of the unissued bonds authorized by Sections 1 and 4 of the Act approved April 24 1917, $225,000,000 shall be in lieu of that amount of the unissued bonds authorized by Section 39 of the Act, approved Aug. 5 1909, $150,000,000 shall be in lieu of the unissued bonds authorized by the joint resolution approved March 4 1917, and $100,000,000 shall be in lieu of the unissued bonds authorized by Section 400 of the Act, approved March 3 1917.

Section 2 provides for the appropriation out of any money in the Treasury not otherwise appropriated, of the sum of $4,000,000,000, and in addition thereto the unexpended balance of the appropriations made by Section 2 (the section that authorizes loans to the Allies) of the Act approved April 24 1917 and under the same conditions.

Section 4 provides for the convertibility of the bonds into any issue thereafter made bearing a higher rate of interest. Under Section 7 it is provided that none of the bonds shall bear the circulation privilege. The bonds are exempt, both as to principal and interest, from all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority, except (a) estate or inheritance taxes, and (b) graduated additional income taxes, commonly known as surtaxes, and excess profits and war profits taxes, now or hereafter imposed by the United States, upon the income or profits of individuals, partnerships, associations, or corporations. The interest on an amount of such bonds and certificates the principa of which does not exceed in the aggregate $5,000, owned by any individual, partnership, association, or corporation, is exempt from the taxes provided for in subdivision (b) of this section.

Section 11, which relates to the conversion privilege of the *first* issue of Liberty Loan Bonds, states that no bonds shall be issued under authority of Sections 1 and 4 of said Act approved April 24 1917, in addition to the $2,000,000,000 already issued or offered for subscription

Under authority of the Act, the Secretary of the Treasury offered for subscription on Oct. 1 an issue of $3,000,000,000 or more of 4% 10-25-Year bonds of the same denominations as the first Liberty Loan, reserving the right to allot bonds in excess of $3,000,000,000 to the extent of not over one-half of the sum by which the subscriptions received exceeded $3,000,000,000. Subscriptions totaled $4,617,532,300, or $1,617,532,300 more than the minimum sought, and on the basis of 50% of the oversubscriptions, the amount issued was $3,807,865,000; all those up to $50,000 were allotted in full. Total number of subscribers was approximately 9,400,000. There were outstanding on May 31 1926, $3,104,530,300, of which only $20,850,700 were 4s, the remaining $3,083,679,600 having been converted into 4¼s.

With the issue of the Second Liberty 4s, dated Nov. 15 1917, a conversion privilege arose with respect to the First Liberty 3½s which continued until May 15 1918. The bonds issued upon conversion retained the date of maturity, the terms of redemption, and the dates of interest payment of the 3½s, but otherwise had the terms of the Second Liberty 4s. When the Third Liberty 4¼s were issued on May 9 1918, the holders of the unconverted First Liberty 3½s had the privilege of conversion into the new 4¼s and so did the holders of First Liberty converted 4s and of Second Liberty 4s. The privilege continued for six months or until Nov. 9 1918. The Third Liberty 4¼s are non-convertible, and hence the 4¼% bonds issued upon conversion of prior issues likewise are non-convertible. With the issuance of the Fourth Liberty Loan on Oct. 24 1918, a new privilege of exchange accrued to the holders of the unconverted First Liberty 3½s; this privilege remained open until April 24 1919. By Sec. 5 of the Victory Liberty Loan Act of March 3 1919, authority was conferred upon the Secretary of the Treasury to extend the privilege of converting the 4% bonds of 1932-47 of the First Liberty Loan converted and the 4% bonds of 1927-42 of the Second Liberty Loan into 4¼% bonds. Accordingly, by circular dated Mar. 7 1919, and published in the "Chronicle" of March 15 1919, page 1021, the Secretary offered a new privilege of conversion. This privilege may be terminated at any time upon six months public notice. The privilege does not apply to the unconverted 3½s of the First Liberty Loan.

LIBERTY LOAN OF 1918, THIRD (Column 3).—Authorized by Act of April 4 1918, amending the Act of Sept. 24 1917. Following the general lines of the Act which it amends, it authorizes the issuance of not exceeding $12,000,000,000 bonds, bearing not exceeding 4¼% interest, in addition to the $2,000,000,000 issued under authority of the Act of April 24 1917, but including the bonds outstanding under the Second Liberty Loan and the $3,063,945,460 reserved for unissued bonds of earlier Acts. Section 2 increased the *additional* loans or credits that might be extended to the Allies from $4,000,000,000 to $5,500,000,000.

Section 3 provides that holders of bonds bearing interest at a higher rate than four per centum per annum, whether issued under Section 1 or upon conversion of three and one half per centum bonds issued under the Act approved April 24 1917, or upon conversion of four per centum bonds issued upon conversion of such three and one half per centum bonds, shall not be entitled to any privilege of conversion under or pursuant to this section or otherwise. Under Section 7 it is provided that none of the bonds shall bear the circulation privilege. The bonds are non-convertible and not subject to redemption before maturity, but are exempt from taxation as indicated above under Second Liberty Loan and receivable for Federal inheritance taxes.

Under authority of the Act, the Secretary of the Treasury offered for subscription on April 6 1918 $3,000,000,000 4¼% 10-year gold bonds with coupon bonds for $5,000 and $10,000 and registered bonds for $50 in addition to the same denominations as the First Liberty Loan, reserving the right to allot additional bonds to the extent of full amount of any oversubscripion. Subscriptions totaled $4,175,650,050, or $1,175,650,050 more than the minimum sought, and all were allotted. Total number of subscribers was 18,376,815. Outstanding May 31 1926, $2,568,272,950.

LIBERTY LOAN OF 1918, FOURTH (Column 4).—Authorized by Act of July 9 1918, amending previous Liberty Loan enactments. Section 1 increases from $12,000,000,000 to $20,000,000,000 the total of bonds bearing not exceeding 4¼% interest that may be issued under the various Acts. Section 2 increases the loans or credits that may be extended to the Allies from $5,500,000,000 to $7,000,000,000, in addition to the $3,000,000,000 authorized under the First Liberty Loan Act. Section 3 provides that, with the approval of the Secretary of the Treasury, bonds, while beneficially owned by a non-resident alien individual, or by a foreign corporation, partnership or association, not engaged in business in the United States, shal be exempt both as to principal and interest from any and all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority.

Under authority of the Act the Secretary of the Treasury offered for subscription on Sept. 28 $6,000,000,000 4¼% 15-20-year (optional) gold bonds of the same denomination as those of the Third Loan, reserving the right to allot additional bonds to the extent of full amount of any oversubscription. Subscriptions totaled $6,964,581,100, or $964,581,100 more than the minimum sought, and all were allotted. Total number of subscribers was approximately 21,000,000. The bonds, like all other Liberty Loan issues, are not available for bank note circulation.

Supplementary to the passage of the above authorizing Act, there was passed and signed by the President on Sept. 24 1918 a bill designed to stimulate sales of Liberty Bonds by exempting from the supertaxes and from war excess profits taxes interest on a certain amount of Liberty bond holdings. The principal provisions of the bill are:

(1) The interest on an amount of bonds of the Fourth Liberty Loan, the principal of which does not exceed $30,000, owned by any individual partnership, association, or corporation, shall be exempt from graduated additional income taxes, commonly known as surtaxes, and excess profits and war-profits taxes, now or hereafter imposed, upon the income or profits of individuals, partnerships, associations, or corporations.

(2) The interest received after Jan. 1 1918 on an amount of bonds of the First Liberty Loan converted, dated either Nov. 15 1917 or May 9 1918, the Second Liberty Loan, converted and unconverted, and the Third Liberty Loan, the principal of which does not exceed $45,000 in the aggregate, owned by any individual, partnership, association, or corporation, shall be exempt from such taxes: *Provided, however*, That no owner of such bonds shall be entitled to such exemption in respect to the interest on an aggregate amount of such bonds exceeding 1½ times the principal amount of bonds of the Fourth Liberty Loan originally subscribed for by such owner and still owned by him at the date of his tax return: and

(3) The interest on an amount of bonds, the principal of which does not exceed $30,000, owned by any individual, partnership, association, or corporation, issued upon conversion of 3½% bonds of the First Liberty Loan in the exercise of any privilege arising as a consequence of the issue of bonds of the Fourth Liberty Loan, shall be exempt from such taxes.

The exemptions provided in this section shall be in addition to the exemption provided in Section 7 of the Second Liberty Bond Act in respect to the interest on an amount of bonds and certificates, authorized by such Act and amendments thereto, the principal of which does not exceed in the aggregate $5,000, and in addition to all other exemptions provided in the Second Liberty Bond Act. [In the Revenue Act of 1921 and again in those of 1924 and 1926 the tax provisions of the different issues were consolidated in a single section, as noted under a separate heading in the earlier part of these remarks.—Ed.]

Sec. 2. *War Savings Certificates.*—That Sec. 6 of the 2d Liberty Bond Act is hereby amended by striking out the figures "$2,000,000,000," and inserting in lieu thereof "$4,000,000,000." Such section is f urther amended by striking out the words "The amount of War Savings Certificates sold to any one person at any one time shall not exceed $100, and it shall not be lawful for any one person at any one time to hold War Savings Certificates to an aggregate amount exceeding $1,000," and inserting in lieu thereof the words "It shall not be lawful for any one person at any one time to hold War Savings Certificates of any one series to an aggregate amount exceeding $1,000." [The Revenue Act of 1921 raised this limit to $5,000 —Ed.]

War Savings Certificates.—On Jan. 1 1923 the Treasury Department redeemed the War Savings Certificates of 1918. A new offering of the certificates, Series of 1923, was made, and holders of the maturing certificates were urged to exchange their holdings for the new issue. Saving certificates were completely withdrawn from sale at the close of business July 15 1924 after sales had been suspended earlier in the year in many Western and Middle Western States to permit use of funds to aid in agricultural relief. On Jan. 1 1925, the Treasury redeemed the War Savings Certificates and Treasury Savings Certificates, Series of 1920 and on Jan. 1 1926 the Series of 1921.

Amount of Fourth Liberty Loan bonds outstanding May 31 1926, $6,324,472,450, bearing 4¼% interest. The amount of Savings Certificates outstanding May 31 1926 was $360,447,254.05.

FIFTH OR VICTORY LIBERTY LOAN OF 1919 (Column 5).—Authorized by Act of March 3 1919, amending previous Liberty Loan enactments and the War Finance Corporation Act. Under the Act the Second Liberty Bond Act is amended by adding thereto a new section [18] which provides (a) for the issuing of notes to an amount not exceeding $7,000 ,000,000 in the aggregate, at such rates of interest as the Secretary of the Treasury may prescribe and payable at such time not less than one year nor more than five years as he may prescribe, redeemable before maturity at the option of the United States; (b) the notes to be issued in one or more series as follows: "(1) Exempt, both as to principal and interest, from all taxation (except estate or inheritance taxes) now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority. (2 and 3) Exempt, both as to principal and interest, from all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority, except (a) estate or inheritance taxes, and (b) graduated additional income taxes commonly known as surtaxes and excess profits and war profits taxes now or hereafter imposed by the United States upon the income or profits of individuals, partnerships, associations, or corporations, except that the interest on an amount of such notes the principal of which does not exceed $30,000 so owned, is exempted. Or, (4) Exempt, both as to principal and interest, from all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority, except (a) estate or inheritance taxes, and (b) all income, excess profits and war profits taxes, now or hereafter imposed by the United States upon the income or profits of individuals, partnerships, associations or corporations."

Holders had the option of converting their holdings of notes of any series into any other series of same date of issue at par. The notes do not bear the circulating privilege. Under authority of the Act the Secretary of the Treasury on April 21 1919 invited subscriptions for $4,500,000,000 convertible gold notes bearing 3¼% or 4¼% of the same denominations as those of the Fourth Liberty Loan. The notes bearing 3¼% to enjoy exemption as per (1) above and 2, 3 & 4 to apply to the 4¼s. The Secretary announced that allotments would be restricted to the $4,500,000,000 offered) but that applications not in excess of $10,000 would be allotted in full. Subscriptions aggregated $5,249,908,300, or $749,908,300 in excess of the offering. Total number of subscribers was approximately 12,000,000. The exact amount issued was $4,495,373,000. On Feb. 9 1922 the Victory Notes bearing 3¾% interest were called for payment on June 15 1922. A portion of the 4¼% notes, consisting of Series A, B, C, D, E and F, amounting $702,938,100, was on July 26 1922 called for payment Dec. 15 1922, and on May 20 1923 the remainder of the issue, all bearing 4¼% and about $800,500,000 in amount, matured and were paid off.

The Victory Liberty Loan Act, in addition to providing for the issuance of the $4,500,000,000 notes as above, covered the following changes in the exemption privileges contained in preceding Acts:

Sec. 2. (a) That until the expiration of five years after the date of the termination of the war between the United States and the German Government, as fixed by proclamation of the President, in addition to the exemptions provided in Section 7 of the Second Liberty Bond Act in respect to the interest on an amount of bonds and certificates, authorized by such Act and amendments thereto, the principal of which does not exceed in the aggregate $5,000, and in addition to all other exemptions provided in the Second Liberty Bond Act or the supplement to Second Liberty Bond Act the interest received on and after Jan. 1 1919 on an amount of bonds of the First Liberty Loan Converted, dated Nov. 15 1917, May 9 1918 or Oct. 24 1918, the Second Liberty Loan, converted and unconverted, the Third Liberty Loan, and the Fourth Liberty Loan, the principal of which does not exceed $30,000 in the aggregate, owned by any individual, partnership, association, or corporation, shall be exempt from graduated additional income taxes, commonly known as surtaxes, and excess profits and war profits taxes, now or hereafter imposed by the United States upon the income or profits of individuals, partnerships, associations or corporations

(b) In addition to the exemption provided in subdivision (a), and in addition to the other exemptions therein referred to, the interest received on and after Jan. 1 1919 on an amount of the bonds therein specified the principal of which does not exceed $20,000 in the aggregate, owned by any individual, partnership, association, or corporation, shall be exempt from the taxes therein specified: *Provided*, That no owner of such bonds shall be entitled to such exemption in respect to the interest on an aggregate principal amount of such bonds exceeding three times the principal amount of notes of the Victory Liberty Loan originally subscribed for by such owner and still owned by him at the date of his tax return. [In the Revenue Act of 1921 the tax provisions of the different issues were consolidated in a single section, said section being reincorporated in the new Revenue Act of 1924 as Section 1028, and in the Revenue Act of 1926 as Sec. 1125 as noted under a separate heading in the earlier part of these remarks.—Ed.]

ISSUE OF TREASURY NOTES.—In 1921 the new Secretary began issuing Treasury Notes. In June 1921 he made an offer of 5¾% 3-year Treasury Notes (exempt from the normal income tax, but not from the surtaxes, the excess profits and the war profits taxes), the notes not being subject to prior redemption, and allotted $311,191,600. On Sept. 8 1921 he made an offering of three-year notes. These notes were dated Sept. 15 and carried the same exemptions as the others, but bore only 5½% interest. The subscriptions for the notes reached $785,082,900 and the amount allotted was $390,706,100. In Feb. 1922 $601,599,500 notes at only 4¾%, maturing March 15 1925, were issued. In the following March an additional $617,769,700 4¾% notes, to mature March 15 1926, were issued. In June 1922 another issue of Treasury Notes, Series B-1925, bearing but 4⅛% interest, dated June 15 1922 and maturing Dec. 15 1925, was offered; subscriptions totaled $335,141,300, all of which were allotted. Along with the call for redemption on Dec 15 of Series A to F of the Victory 4¼s, the Secretary announced the offering of an issue of about $300,000,000 4¼% Treasury Notes, with provision for additional allotments up to a limited amount in exchange for the called Notes. Subscriptions totaled $1,236,861,450. Allotments of $486,940,100, including about $141,500,000 exchanges, were made. An offering of $300,000,000 Treasury Notes was made in December 1922. These notes bore 4½% interest, were dated Dec. 15 1922, and matured June 15 1925. Amount allotted was $469,213,200, of which about $41,000,000 represented exchanges. In January 1923 another offering of $300,000,000 was made. These notes bore 4½%, were dated Jan. 15 1923 and mature Dec. 15 1927. Subscriptions amounted to $581,550,800, of which $366,981,500 were allotted. Another issue, bearing 4¼% interest, dated May 15 1923 and payable March 15 1927, was made in May 1923. The amount of the offering for cash was $400,000,000 or thereabouts. Victory Notes maturing May 20 1923 were accepted in payment for the new notes. Subscriptions, including over $286,000,000 exchanges, totaled $1,234,570,400, while allotments were $668,201,400. A grand total of $1,612,403,600 Treasury notes was outstanding on May 31 1926.

TREASURY LONG-TERM BOND ISSUE OF 1922.—Under authority of the Act of April 24 1917, as amended, the Secretary on Oct. 9 1922, made an offering of an issue of $500,000,000 4¼% Treasury bonds for refunding purposes. The bonds are dated Oct. 16 1922 and mature Oct. 15 1952, the Government having the option of redeeming the bonds on any interest date on or after Oct. 15 1947 on four months' notice. Cash subscriptions totaled no less than $1,399,851,900. It was announced that all subscriptions up to $10,000 would be allotted in full. The Secretary also reserved the right to accept additional applications where Victory Notes and Treasury certificates of indebtedness maturing Dec. 15 were tendered in payment. Total allotments, both cash and exchanges, amounted to 763,962,300. The amount outstanding May 31 1926 was $763,948,300.

TREASURY LONG-TERM BOND ISSUE OF 1924.—On Dec. 3 1924 another offering of long-term bonds was made by the Secretary of Treasury. These consisted of an issue of 4% bonds in the amount of $200,000,000 or thereabouts for cash, with the right to allot additional bonds to extent that 4¼% Treasury notes and 4% Treasury certificates of indebtedness, both maturing March 15 1925, or the Third Liberty Loan bonds, bearing 4¼% interest, were tendered in payment. Cash subscriptions closed Dec. 4 and totaled $1,460,530,550; the amount allotted was $224,513,500. Exchange subscriptions, closed Dec. 20 and which it was announced would be allotted in full, reached $532,230,000. Bonds were issued under the Act of Sept. 24 1917, as amended, are dated Dec. 15 1924 and mature Dec. 15 1954, but may be redeemed on and after Dec. 15 1944 in whole or in part, at par and accrued interest, on any interest day or days, on four months' notice.

On March 5 1925 the Secretary of the Treasury offered an additional block of bonds of the same series as those offered on Dec. 3 1924. Subscriptions received for the bonds were $382,326,400, of which $290,154,700 were accepted. The grand total of these 4% bonds issued was $1,047,087,500, which also was the amount outstanding May 31, 1926.

TREASURY LONG-TERM BOND ISSUE OF 1926.—On March 7 1926 another new long term issue of bonds was floated by the Treasury Department. The offering was for $500,000,000 or thereabouts, for which could be tendered in part payment Treasury notes, Series A 1926, maturing March 15 1926. Total subscriptions for the issue amounted to $647,243,900, of which $494,898,100 were accepted. The bonds were offered at 100½, mature March 15 1956, optional on or after March 15 1946 on four months' notice of redemption, and bear 3¾% interest. This is the lowest rate borne by any long-term bonds since the issuance of the First Liberty Loan 3½% bonds in June 1917. On May 31 1925 the amount of this loan outstanding was $494,898,100, being the same as the amount issued.

Note.—Reference to the statutes governing older issues of bonds and of War Savings and Thrift Stamps will be found in the issue of the "State and City" Section for December 21 1918

In April 1895 we gave a table showing the debt of the United States on the first day of July 1856, and every subsequent year On this occasion we begin our statement with 1878, as that year antedates all of the issues now outstanding. The statement is subjoined.

Note 1.—The annual interest charge is computed upon the amount of outstanding principal at the close of the fiscal year.

Note 2.—The figures for July 1 1879 were made up assuming pending funding operations to have been completed.

* *Note* 3.—Under the Act of March 14 1900 the Treasury Department has kept the gold reserve fund as a separate item, and not included it in the available cash balance. In the above statement, however, we have continued to include the item for the years given.

a Under the new form of statement issued by the Treasury Department the gold reserve ($154,188,886.20 May 31 1926) is deducted from the total of United States notes outstanding, decreasing to that extent the debt bearing no interest and consequently making a similar reduction in the balance of cash available to pay maturing obligations.

b Current liabilities exceeded cash by this amount. f Continued at 3¼%. f Continued at 3%. ‡ Approximate.

x To this must be added "matured interest obligations, &c.," which on April 30 1926 (the latest date available) amounted to $146,635,040.99.

d These totals have been increased by the amounts of the "matured interest obligations, &c.," which were $296,463,861 June 30 1922, $176,085,461 June 30 1923, $164,954,358.94 June 30 1924 and $142,941,522.28 June 30 1925.

Bonds for Investment

We own and offer a comprehensive list of carefully selected Government, Municipal, Railroad and Public Utility Bonds which we recommend for investment. We shall be pleased to send descriptive circulars to investors on request.
